

Information Technology

Thanks for being here!

Digital Equity

Vermont as your campus

- Ensuring every student has an equitable “front door” to accessing their education
- Discussion around “kits”
- Defining a learning space
- Remote App Delivery options

Classroom Technology

- Have you participated in a course remotely that “zoomed” into a classroom?
 - What was the experience like?
 - Thoughts on audio, visual, presentation?

Self-Service Expectations

- Current Helpdesk services (feedback?), traditionally staffed 8-5.
- How do we ensure students can access the support they need off hours?
 - What does it look like to support you in that way? Chats, documentation, etc.

Other feedback/thoughts?
