

## **Student Advisory Council Transcript**

**April 28, 2022**

2 & 3

00:00:42.780 --> 00:00:43.950

Wilson Garland: Thanks everyone for joining us tonight.

4

00:00:47.160 --> 00:00:56.130

Wilson Garland: This is the last Student Advisory Council meeting of the Semester so thanks to all of you for making it through the Semester and

5

00:00:56.160 --> 00:00:58.530

Wilson Garland: joining us here for this important meeting.

6

00:01:00.810 --> 00:01:17.040

Wilson Garland: And, and I think make sent out a message earlier this week that just remaining about tonight, but also for those of you aren't graduating if you have an interest in continuing on the student Advisory Council next semester feel free to reply to that email and let us know.

7

00:01:17.400 --> 00:01:26.310

Wilson Garland: we're anxious to have as many folks as possible who are interested in continuing and then we'll do a nominations process again in the fall like we did.

8

00:01:27.510 --> 00:01:39.960

Wilson Garland: This year, so if you have any friends or colleagues that you think would be a good Members on this group feel free to let them know and we'll have a nominations process again.

9

00:01:41.640 --> 00:01:48.060

Wilson Garland: So with that we'll start off like we always do, and kind of go around the screen and just make sure everybody knows who's here.

\*[introductions moved to end of transcript]

62

00:06:44.310 --> 00:07:00.360

Wilson Garland: And there may be some other folks joining us here at some point, but thanks for getting started and, as you know, no doubt gathered, we have the folks here from the student in residence life team and they're going to be leading the discussion today.

63

00:07:02.130 --> 00:07:03.660

Wilson Garland: And I think Jason.

64

00:07:05.820 --> 00:07:07.320

Wilson Garland: you're going to get us kicked off here.

65

00:07:09.480 --> 00:07:14.280

Jason Enser- Dean of Students VTC: I got the PowerPoint do you want me to share meg do you want to share.

66

00:07:16.230 --> 00:07:17.760

Meg Walz: I can share it if you need me to.

67

00:07:18.210 --> 00:07:21.780

Jason Enser- Dean of Students VTC: All right, that'd be awesome yeah the way I can focus on the group.

68

00:07:22.590 --> 00:07:23.250

Meg Walz: Sure yeah.

69

00:07:25.530 --> 00:07:25.830

Wilson Garland: Thank you.

70

00:07:30.630 --> 00:07:31.260

Meg Walz: There we go.

71

00:07:32.940 --> 00:07:33.870

Jason Enser- Dean of Students VTC: awesome so.

72

00:07:34.350 --> 00:07:41.310

Jason Enser- Dean of Students VTC: Thank you all we're very excited to get student feedback, because obviously the work that we do affects your either your daily lives, if you.

73

00:07:41.310 --> 00:07:55.260

Jason Enser- Dean of Students VTC: will be a student here in a couple years or our future students, that you will be alumni of the new university for us so we're going to talk predominantly about residence life, but we've got some other.

74

00:07:56.340 --> 00:08:01.590

Jason Enser- Dean of Students VTC: areas, we want to talk about our team has seven different areas we're doing exploration on.

75

00:08:01.920 --> 00:08:11.190

Jason Enser- Dean of Students VTC: And there's, I believe, for that we're going to talk to you about we've done a lot of design around residence life already that we want to kind of pitch to you and get feedback on.

76

00:08:11.460 --> 00:08:26.280

Jason Enser- Dean of Students VTC: And then the other stuff we haven't done design on we've done discovery, so we might even be able to come back once we're closer to a design phase, and then I just wanted to get a sense, are we recording or, should I be taking notes.

77

00:08:29.100 --> 00:08:31.620

Wilson Garland: We are we are recording, and we'll have a transcript.

78

00:08:32.340 --> 00:08:42.510

Jason Enser- Dean of Students VTC: Perfect that way I can just totally focus alright, so our group has spent about a month and a half, talking about the concept for residence life with the new university.

79

00:08:42.960 --> 00:08:51.900

Jason Enser- Dean of Students VTC: And we've landed on some things we want to flow by all, to see if you think this is what students are looking for see if we're missing anything answer some.

80

00:08:52.350 --> 00:09:00.330

Jason Enser- Dean of Students VTC: kind of high-level questions and also talk a little bit about what we think organizational structure at the very high-level look like.

81

00:09:00.780 --> 00:09:10.110

Jason Enser- Dean of Students VTC: So the first thing is we've come up with four options and I'll define each one on each side traditional residential housing, which is what you're pretty much facing right now.

82

00:09:10.650 --> 00:09:20.130

Jason Enser- Dean of Students VTC: Low residency housing hybrid and family housing and again I'll give you a definition of what we're thinking about and then, as we get into what the actual.

83

00:09:21.420 --> 00:09:30.090

Jason Enser- Dean of Students VTC: Organizational Structure look like I think it's very important that we say that we're recommending that there will be professional, and student live on staff at each location.

84

00:09:30.390 --> 00:09:40.380

Jason Enser- Dean of Students VTC: You know, we heard pretty loud and clear that the legislature expects us to have housing options and Castle 10 in Randolph in Williston in.

85

00:09:40.980 --> 00:09:43.590

Jason Enser- Dean of Students VTC: Johnson in London, so those.

86

00:09:44.100 --> 00:09:52.740

Jason Enser- Dean of Students VTC: Housing options may look different at each location, but if we're going to provide a quality program we do believe that there needs to be both professionals and student living staff.

87

00:09:52.950 --> 00:10:00.000

Jason Enser- Dean of Students VTC: So, if any of you are IRAs and you were worried about that, no, we are still recommending there would be ra ca's on the campuses.

88

00:10:00.600 --> 00:10:12.120

Jason Enser- Dean of Students VTC: But we do think there can be some consolidation to a university level in two different areas and those key areas would be residential, education and housing operations.

89

00:10:12.420 --> 00:10:21.030

Jason Enser- Dean of Students VTC: So larger schools actually break out residence life into two different functions housing operations would be more your facilities maintenance.

90

00:10:21.600 --> 00:10:35.220

Jason Enser- Dean of Students VTC: Your room placement, you know changing rooms your keys all the you know the physical operations of housing were residential education goes beyond that thinking about programming that's happening on campus.

91

00:10:35.610 --> 00:10:42.120

Jason Enser- Dean of Students VTC: are a training and selection, making sure you know if you're having roommate issues you have somebody to talk to.

92

00:10:42.570 --> 00:10:51.570

Jason Enser- Dean of Students VTC: The developmental aspect, the counseling aspect of residential education, so we feel like we can consolidate we don't need to have that on every single campus.

93

00:10:51.780 --> 00:11:02.670

Jason Enser- Dean of Students VTC: We can have that centralized for the Vermont State University, where each campus if we continue to how students there do need to be professional live on staff that you know let's say.

94

00:11:03.060 --> 00:11:12.390

Jason Enser- Dean of Students VTC: You know you've got a fire in your building, you need to call your CA or you need to call your RD in the middle of night that you can get Ahold of so.

95

00:11:12.900 --> 00:11:21.450

Jason Enser- Dean of Students VTC: I hope that alleviates any concern that might be out there, so I think we can go to the next slide Meg unless there are before I get into that there are any questions feel free to stop me.

96

00:11:23.910 --> 00:11:37.020

Jason Enser- Dean of Students VTC: All right, we can go into the next slide and under these there will be some questions alright so traditional housing would be full academic term so fall spring and or summer 15 weeks.

97

00:11:37.650 --> 00:11:40.620

Jason Enser- Dean of Students VTC: with most of our traditional programs that you're used to.

98

00:11:41.160 --> 00:11:48.960

Jason Enser- Dean of Students VTC: We don't anticipate that necessarily going away from any campuses some campuses may have more of these programs where others have different models.

99

00:11:49.200 --> 00:11:56.610

Jason Enser- Dean of Students VTC: that's going to be based, a lot on the academic experience and what's decided for our programs, you know we have programs that are more.

100

00:11:57.000 --> 00:12:06.180

Jason Enser- Dean of Students VTC: come in for labs at a week on a time or one day a week, then we'll get into the more hybrid or low residency, but this is traditional.

101

00:12:06.660 --> 00:12:13.830

Jason Enser- Dean of Students VTC: On this would be traditional meal plans, as is right now, most of our facilities are not.

102

00:12:14.280 --> 00:12:24.990

Jason Enser- Dean of Students VTC: Designed where you would have full flood kitchen where you could have hundreds of people go in and prepare their own meals, so this would be no construction needed, as is.

103

00:12:25.650 --> 00:12:41.490

Jason Enser- Dean of Students VTC: On our campuses you would still have the meal plans um it would be campus location, depending on major, as I mentioned that will get into, as we know, our academic program away array on It could also potentially choose campus for certain reasons so let's say.

104

00:12:42.510 --> 00:12:50.040

Jason Enser- Dean of Students VTC: you're a vc stick well won't be vt sandy more whatever we're calling the Randolph campus you're studying engineering.

105

00:12:50.430 --> 00:13:02.190

Jason Enser- Dean of Students VTC: And the program is based in Randolph, but you played football all of your life and you'd like to play football and that's only offered at Castle 10 you could have the option to choose to live at Castle 10.

106

00:13:02.580 --> 00:13:12.960

Jason Enser- Dean of Students VTC: But then we would have to figure out, you know when you'd be at etc so depending on what the things are or, for example, etc we're talking about having a full fledge.

107

00:13:13.770 --> 00:13:19.710

Jason Enser- Dean of Students VTC: varsity sports program where I don't think that's offered up the other schools, maybe you're a castle tin.

108

00:13:20.040 --> 00:13:32.160

Jason Enser- Dean of Students VTC: I education major but you really love esports and you want to be on the campus that has the esports basement in it, you can live there, so there could be some flexibility on what campus you choose to stay at.

109

00:13:32.730 --> 00:13:43.050

Jason Enser- Dean of Students VTC: And then, our question currently there is a housing requirement for anybody under the age of 21 years old, that are going to be 30 miles away from the campuses.

110

00:13:43.350 --> 00:13:52.290

Jason Enser- Dean of Students VTC: So we wanted to get a sense from this group, how you feel about that I don't think we're necessarily recommending a change in your one because we're still going to be.

111

00:13:52.980 --> 00:14:02.460

Jason Enser- Dean of Students VTC: Having a similar model this, but I think there could be some flexibility on this down the line, but when students have the option to live off campus.

112

00:14:03.030 --> 00:14:12.840

Jason Enser- Dean of Students VTC: And I'm talking traditional students, not the you know your hybrid not your all online, but your academic program is based in a certain location.

113

00:14:13.110 --> 00:14:22.830

Jason Enser- Dean of Students VTC: Do you think there is some value in keeping this requirement with flexibility, obviously, you know if you're not going to come here if we make it live on campus we're going to be flexible.

114

00:14:23.100 --> 00:14:32.520

Jason Enser- Dean of Students VTC: But trying to encourage students to live on campus to build that relationship during those first two years to make friends to have that full college experience.

115

00:14:32.760 --> 00:14:40.560

Jason Enser- Dean of Students VTC: Or do you think we should move towards it's 100% optional for anybody so that's a question that I would pose to the students on this group now.

116

00:14:43.140 --> 00:14:44.430

Jason Enser- Dean of Students VTC: I see serena first.

117

00:14:45.960 --> 00:14:57.600

Sarina Pesinkowski: As somebody on the Johnson campus who has had some friends who have decided to leave because it was a it was on it was just not right for them, I wonder if we could potentially.

118

00:14:58.890 --> 00:15:16.410

Sarina Pesinkowski: Maybe not for your first year, I understand where you're coming from on that to build campus community, but in for your second year, maybe increase the mileage on the commuters I Johnson's in a location where Burlington is about 15 miles I believe outside that 30-mile range mark and.

119

00:15:17.520 --> 00:15:24.660

Sarina Pesinkowski: A fair amount of students come from that area, and I know that for some they'll end up paying for the room, but they stay at home.

120

00:15:25.590 --> 00:15:33.120

Sarina Pesinkowski: Probably five nights out of seven I know somebody right now who's a freshman who does exactly that she stays here for one night out of the whole week.

121

00:15:33.420 --> 00:15:38.280

Sarina Pesinkowski: And she's considering leaving because it's cost prohibitive for her to have to pay to live here when she's.

122

00:15:39.000 --> 00:15:48.090

Sarina Pesinkowski: not really living here because also to pay to live here, you also have to pay for the meal plan that you're not using so I also would wonder if.

123

00:15:48.360 --> 00:16:00.750

Sarina Pesinkowski: If we're still going to require them to live here if they're not really utilizing it maybe there's some flexibility in the types of meal plans that were requiring them to have, is there a possibility that somebody who's.

124

00:16:01.650 --> 00:16:10.920

Sarina Pesinkowski: You know, living on campus but not necessarily living on campus what we would consider full time since they're full-time students, perhaps even though they inferior living here, they could.

125

00:16:11.310 --> 00:16:22.950

Sarina Pesinkowski: sign up for a commuter plan, and that would be allowed, but there'd be less red tape, because I know from experience, myself and with friends that getting a commuter plan approved when you're.

126

00:16:23.640 --> 00:16:32.730

Sarina Pesinkowski: required to live on campus is a very difficult process and I don't know if that is something that has to be worked on with the ducks or if that's solely within res life but I'm.

127

00:16:33.720 --> 00:16:41.190

Sarina Pesinkowski: Coming from the Johnson perspective, where Burlington is not too far out of the 30-mile range I just wonder if there's a way to.

128

00:16:41.700 --> 00:16:53.040

Sarina Pesinkowski: kind of incentivize students in that area who would prefer to commute to still stay at come to Johnson and stay at Johnson or just stay with them to the Su but, clearly, I prefer the stage on some.

129

00:16:54.120 --> 00:16:59.580

Jason Enser- Dean of Students VTC: Great points, some of these I think we're going to address in our different models, but I love that perspective.

130

00:16:59.850 --> 00:17:12.630

Jason Enser- Dean of Students VTC: I hate to hear that a student is paying for housing and only staying there one day a week, so I think when we get into the low residency housing hopefully that'll be an option student like that might want to consider I see gave and then mo next.

131

00:17:12.990 --> 00:17:23.130

Gabriel Wilkinson: um yeah I fear of Randolph Obviously we are as close to any major cities as Berlin or as a the other campuses might be so.

132

00:17:23.850 --> 00:17:30.750

Gabriel Wilkinson: Traditionally, speaking, most people do live on campus, although I do know have quite a few who have started living off campus um.

133

00:17:31.350 --> 00:17:40.200

Gabriel Wilkinson: I've also heard similar complaints about the meal plan I've already brought it up to you for um yeah just the flexibility with it, I know a lot of people who.

134

00:17:40.890 --> 00:17:51.480

Gabriel Wilkinson: I mean, I can speak personally I eat two meals, a day I never ever eat three I don't wake up in time for breakfast it's just simple fact and I'm paying for that extra meal and I'm not doing it.

135

00:17:53.430 --> 00:17:57.060

Gabriel Wilkinson: I've heard that completely opposite from a couple of people are a's everything.

136

00:17:57.930 --> 00:18:01.380

Jason Enser- Dean of Students VTC: who gave me my hair and flexibility on the meal plan, but.

137

00:18:02.490 --> 00:18:05.880

Jason Enser- Dean of Students VTC: Having the housing or FLEX housing is all.

138

00:18:06.660 --> 00:18:22.140

Gabriel Wilkinson: I would say so it's like somebody has a meal plan, especially but housing, I mean I definitely think it feces we just don't have a lot of other options for housing, but I think for freshmen I think should probably be restarted hard to stay here and then.

139

00:18:23.310 --> 00:18:25.440

Gabriel Wilkinson: I don't know sophomores I think it's kind of a.

140

00:18:27.180 --> 00:18:30.180

Gabriel Wilkinson: If they have a good reason to not be here them.

141

00:18:31.890 --> 00:18:33.210

Gabriel Wilkinson: I don't see why we shouldn't.

142

00:18:34.170 --> 00:18:38.190

Jason Enser- Dean of Students VTC: I think that that's our philosophy in general that like if they have a good reason we.

143

00:18:38.190 --> 00:18:42.990

Jason Enser- Dean of Students VTC: Usually, let them out so it's a question of do we make them go through that hope I'm making the request.

144

00:18:44.670 --> 00:18:45.630

Jason Enser- Dean of Students VTC: I see most hand up.

145

00:18:47.190 --> 00:18:50.970

Maurice Ouimet: yeah just thanks Jason, I just wanted to reiterate to the group that you know.

146

00:18:51.360 --> 00:18:53.190

Maurice Ouimet: What tonight we're hoping to get some.

147

00:18:53.340 --> 00:19:01.290

Maurice Ouimet: input from students you guys have been so good all along with this whole Semester and giving us good feedback and just to reiterate that these are just.

148

00:19:01.950 --> 00:19:16.110

Maurice Ouimet: Concepts at this point in time and, and you know as Jason said that the team is discussing all these things, and before we move forward with them, we want to get your input to see if we're kind of going in the right direction, so I just wanted to reiterate that, before we let me first.

149

00:19:16.380 --> 00:19:29.310

Jason Enser- Dean of Students VTC: Three point thanks Bo yeah no no decisions have been made, so please you know well get feedback from your friends don't go like writing in the school newspaper like here's what's happening because that is not the case, yet.

150

00:19:30.720 --> 00:19:31.350

Jason Enser- Dean of Students VTC: Perry.

151

00:19:32.670 --> 00:19:40.950

Perry Ragouzis: um I mean for me, I know that, like it's very difficult to say what should happen, because I think, coming from a.

152

00:19:41.460 --> 00:19:53.250

Perry Ragouzis: A equitable stance, where you want to have a campus it's going to be equitable having everyone living in the same area and in the same community and not having students who have access to.

153

00:19:53.730 --> 00:20:06.870

Perry Ragouzis: Other homes in our then alienated from the campus Community um it can be dangerous, so I think that having those two years to really draw people together and allow everyone to have that very foundational.

154

00:20:07.440 --> 00:20:23.280

Perry Ragouzis: kind of communal sense is really important to structuring a sustaining college experience That being said, housing, should not be the thing that stop someone from pursuing a higher education.

155

00:20:24.300 --> 00:20:30.210

Perry Ragouzis: And so, if you're coming and you hear that you're going to have to pay for.

156

00:20:30.750 --> 00:20:39.480

Perry Ragouzis: Two years of housing, that that that's going to push people away, who are maybe thinking that's going to break the Bank so.

157

00:20:39.930 --> 00:20:49.440

Perry Ragouzis: I mean obviously I'm not sure that this is coming in a clear answer one way or the other, but I think that striving for equity and striving for a community that has those.

158

00:20:49.890 --> 00:20:57.960

Perry Ragouzis: ties those closely knit bonds between people if that one year were to be removed from those two years and it's just going to be one year.

159

00:20:58.170 --> 00:21:08.820

Perry Ragouzis: There needs to be something to replace that to make sure that students are able to connect as intimately with the campus as they would living there, and that's something that's really hard to replicate so.

160

00:21:09.090 --> 00:21:14.280

Perry Ragouzis: I really don't know if there's any other thing to do, then, to stand by those two years.

161

00:21:15.570 --> 00:21:24.300

Jason Enser- Dean of Students VTC: yeah I think those are things that we're wrestling with as well you know pros and cons I did see a comment in the chat let me, can I have that yeah.

162

00:21:25.260 --> 00:21:38.190

Jason Enser- Dean of Students VTC: So this came from serena to piggyback on Gabriel's point, though, imagine cost is, step by step, so if you don't eat three meals, a day and out for the 12-week meal plan instead the cost difference is less than \$150.

163

00:21:38.400 --> 00:21:54.360

Jason Enser- Dean of Students VTC: When it's as costly, as it is flexibility meal plans are in trouble yeah well I don't think the rate is set by subject, so what they charge us is so I think they definitely drive our costs, I don't know Sharon's on this call, if you.

164

00:21:54.360 --> 00:21:54.750

Jason Enser- Dean of Students VTC: want to.

165

00:21:54.810 --> 00:21:56.010

add anything on that.

166

00:21:59.640 --> 00:22:17.520

Sharron Scott: Though rates are established in partnership with Sodexo and the cost of a 12-month plan or versus a 21 meal plan it's actually more costly to operate, because more meals are consumed to sell that's why there's very little price difference.

167

00:22:18.540 --> 00:22:19.020

Jason Enser- Dean of Students VTC: Make sure.

168

00:22:20.310 --> 00:22:27.630

Jason Enser- Dean of Students VTC: But I do think we've got some creative thoughts about the meal plan as we get into the different housing options, so Meg do you mind bringing us to model to.

169

00:22:30.540 --> 00:22:43.080

Jason Enser- Dean of Students VTC: Alright, so this would be low residency housing so not an academic term flexible housing based on student need an academic program requirements so we're thinking very broadly this could be.

170

00:22:43.320 --> 00:22:53.100

Jason Enser- Dean of Students VTC: One day a week, you know let's say your friend forgot, who had mentioned it, that serena headset her friend just comes one day a week.

171

00:22:53.160 --> 00:22:54.390

Jason Enser- Dean of Students VTC: Maybe that's an option to.

172

00:22:54.390 --> 00:23:01.320

Jason Enser- Dean of Students VTC: Have that's all she needs to be there, or Vermont tech when we first had the pandemic, we did low residency housing.

173

00:23:01.710 --> 00:23:11.610

Jason Enser- Dean of Students VTC: Three weeks throughout the Semester, so it was week three week six and week nine students would have labs and they had that be here for those intensive labs so that might be the case, or maybe.

174

00:23:11.880 --> 00:23:26.310

Jason Enser- Dean of Students VTC: there's an academic program that just requires you to be here a month and the rest of the time, your remote so again, a lot of it's based on what the academic program array is like, but the flexibility that students can pick and choose to some extent.

175

00:23:26.640 --> 00:23:28.410

Jason Enser- Dean of Students VTC: And then the meal plan.

176

00:23:28.650 --> 00:23:32.490

Jason Enser- Dean of Students VTC: Probably would be optional and we would look at as.

177

00:23:32.520 --> 00:23:33.960

Jason Enser- Dean of Students VTC: was mentioned commuter plans.

178

00:23:34.230 --> 00:23:40.740

Jason Enser- Dean of Students VTC: And, or maybe we do specialized plans just for those students during the periods that they're here on.

179

00:23:41.400 --> 00:23:46.890

Jason Enser- Dean of Students VTC: The I don't think this would be a major problem from a facility standpoint I don't think we're going to need to do.

180

00:23:47.160 --> 00:23:49.050

Jason Enser- Dean of Students VTC: hardcore construction or anything.

181

00:23:49.740 --> 00:23:59.670

Jason Enser- Dean of Students VTC: What I do think this would be a challenge from a list just tickle standpoint is we're going to have to operate a little bit more like a hotel with turning over rooms turning over keys.

182

00:23:59.940 --> 00:24:10.320

Jason Enser- Dean of Students VTC: we're probably not going to be able to offer amenities like towels or sheets, so we need to make sure the students understand that they're bringing those things in, but I think.

183

00:24:10.380 --> 00:24:11.100

Jason Enser- Dean of Students VTC: This is.

184

00:24:11.190 --> 00:24:14.430

Jason Enser- Dean of Students VTC: attainable, possibly by.

185

00:24:14.610 --> 00:24:18.510

Jason Enser- Dean of Students VTC: 2023 if this is something that was desired by students.

186

00:24:18.510 --> 00:24:28.860

Jason Enser- Dean of Students VTC: So general just reaction to this model and if it's something either you think you would be interested in, or you have friends that might want to take us up on this.

187

00:24:31.440 --> 00:24:33.240

Gabriel Wilkinson: I think it's a great idea I've.

188

00:24:34.560 --> 00:24:43.290

Gabriel Wilkinson: Why personally probably don't have an interest they're actually doing anything with this, I can definitely see while this could be a really good thing for a lot of students, especially those who are.

189

00:24:44.340 --> 00:24:57.810

Gabriel Wilkinson: Only required to really be here for their stuff or classes like for a short period of time, like I get a I took most of my classes this semester online, even though I do live here on campus got.

190

00:25:00.660 --> 00:25:12.840

Gabriel Wilkinson: One classy person and then like a lab, both of which could very easily have been done online, but for like I know auto students, they can do that whole one-week lab thing and that.

191

00:25:14.010 --> 00:25:14.190

yeah.

192

00:25:15.960 --> 00:25:17.700

Jason Enser- Dean of Students VTC: thanks him I see serena stand up.

193

00:25:19.170 --> 00:25:26.340

Sarina Pesinkowski: So I just wanted to confirm that this is planned to be implemented on all the campuses are predominant majority.

194

00:25:27.900 --> 00:25:30.030

Jason Enser- Dean of Students VTC: Still up for discussion.

195

00:25:31.020 --> 00:25:46.680

Jason Enser- Dean of Students VTC: Okay, I could say for the brand off campus I think it's something that we could do, but I don't want to speak for dentistry Jonathan if you're feeling, this is something that would be planned for your locations.

196

00:25:47.100 --> 00:25:57.540

Wilson Garland: And I think I mean relative to lead Murray said earlier, I think you know these are options and we're trying to sort of get input on potential designs rather than.

197

00:25:58.200 --> 00:26:06.480

Wilson Garland: You know, saying that this would be for this campus or that campus or this period of time or that period of time, so this is more conceptual at this point, thanks.

198

00:26:06.660 --> 00:26:08.460

Jason Enser- Dean of Students VTC: Thanks for rainy man well it's a good point there.

199

00:26:08.640 --> 00:26:19.320

Dennis Proulx: And I was just added it's based on what students needs are and that will be trending in different directions, as we really experienced a hybrid university and what it means to go to.

200

00:26:19.770 --> 00:26:29.460

Dennis Proulx: The University a four-month State University, so you know it's going to depend on the student need, and then we should be flexible to that need.

201

00:26:31.890 --> 00:26:42.360

Sarina Pesinkowski: And then two other thoughts I had was one, I believe, at one point during my time here Johnson had something sort of like this, not necessarily online that.

202

00:26:42.780 --> 00:26:52.320

Sarina Pesinkowski: have this type of model, but I think there was a plan in place for if commuters needed to stay overnight, I think it was more specifically in regard to like weather related but.

203

00:26:52.830 --> 00:27:01.980

Sarina Pesinkowski: I know that at one point I heard students talking about it, and I know it was a thing or I believe it was so maybe Jonathan Davis has more information on that later um.

204

00:27:02.040 --> 00:27:05.070

Sarina Pesinkowski: yeah because I hadn't thought about that in years um.

205

00:27:06.330 --> 00:27:06.810

Jonathan Davis (he/him): yeah good.

206

00:27:06.990 --> 00:27:07.920

Jonathan Davis (he/him): memory serena.

207

00:27:08.190 --> 00:27:10.620

Jonathan Davis (he/him): Pre pandemic, we did we had a.

208

00:27:10.680 --> 00:27:19.170

Jonathan Davis (he/him): Low residency program for students who you know for any sort of emergency reason there were some weather-related concerns with long commutes on a.

209

00:27:19.620 --> 00:27:27.390

Jonathan Davis (he/him): snowy Thursday night, for example, and so we would certainly had a mechanism at the time that we put on pause for obvious reasons.

210

00:27:27.960 --> 00:27:38.280

Jonathan Davis (he/him): But this and you know low residency has so many definitions, right now, as will hone in on that, but that that I see as being included in this plan that type of service.

211

00:27:38.940 --> 00:27:46.920

Jonathan Davis (he/him): But we've also said, you know space permitting depending on what the footprints look like campuses we'll have to see what happens there.

212

00:27:47.100 --> 00:27:49.860

Jason Enser- Dean of Students VTC: I think it's in Firefox yeah I.

213

00:27:50.760 --> 00:28:01.110

Jason Enser- Dean of Students VTC: Lately, with Jonathan the fact that, if we were to develop this it'll be a lot easier we've had their requests before and it's hard when you don't have a connection with facilities on.

214

00:28:01.320 --> 00:28:17.340

Jason Enser- Dean of Students VTC: How you're going to set these up, but if we've got this in place, I see completely anybody that would need short term housing, we could work, but I saw Yasmine who is working on academic program or what array which would completely tie into this so love to hear your thoughts.

215

00:28:17.760 --> 00:28:33.540

Yasmine Ziesler: Well, actually, I was just hoping to pick serena's brain a little bit more, and I was curious what was in the back of your mind as you asked when you asked about could this be available everywhere, like what are you thinking about when you think about the different.

216

00:28:33.540 --> 00:28:38.490

Sarina Pesinkowski: kids That brings me to my like last five like my last fully formed thought, which was.

217

00:28:38.790 --> 00:28:56.490

Sarina Pesinkowski: What if somebody is this just for people who commute, or could it be for somebody who has a housing plan on another campus but takes courses at another campus as somebody who's about to receive an associates from London in two weeks but has never once set foot on that campus.

218

00:28:58.050 --> 00:28:59.610

Sarina Pesinkowski: A I can say that that was.

219

00:29:00.840 --> 00:29:06.690

Sarina Pesinkowski: A very difficult and strenuous process that required a lot of a lot of work that I think.

220

00:29:07.890 --> 00:29:16.230

Sarina Pesinkowski: And I will point the idea was that I would do a semester at London, which was a very novel idea that I would have been the guinea pig for as an MBA student.

221

00:29:16.740 --> 00:29:26.400

Sarina Pesinkowski: And it would be, I mean for me personally transportation is also an issue I don't have a way to get to London or I probably would have commuted at some point or another for certain classes, but.

222

00:29:27.180 --> 00:29:34.830

Sarina Pesinkowski: To that end, if I were enrolled in two different courses or two different programs, what have you.

223

00:29:36.870 --> 00:29:43.860

Sarina Pesinkowski: If I'm a Johnson based student or London based student whatever what have you if I if I needed to take a course on Thursday.

224

00:29:45.180 --> 00:29:54.360

Sarina Pesinkowski: Could I stay overnight, you know, like something like that, like one of the it seems not necessarily very plausible that the schedules would line up well.

225

00:29:55.860 --> 00:29:57.810

Sarina Pesinkowski: But it just It begs the question you know.

226

00:30:00.600 --> 00:30:01.860

Jason Enser- Dean of Students VTC: So most ended up.

227

00:30:02.280 --> 00:30:07.950

Maurice Ouimet: yeah I was just going to respond to serena and let you know that that's a question that's on the mind of a lot of prospective students do.

228

00:30:08.280 --> 00:30:15.990

Maurice Ouimet: When they learn about transformation is learning more about flexible options, so that students can move between the campuses and spend.

229

00:30:16.320 --> 00:30:23.940

Maurice Ouimet: You know, as you said, maybe one location is their home location, but they want to spend some time, maybe it's two weeks, maybe it's a month, maybe it's an entire semester.

230

00:30:24.300 --> 00:30:34.890

Maurice Ouimet: Maybe it's a summer experience and we want to be able to provide flexible options for students to be able to move around Vermont State University that way so that's really appealing to our prospective students, right now, as well.

231

00:30:36.120 --> 00:30:41.040

Sarina Pesinkowski: Which brings up a point that's not necessarily directly just about housing, but.

232

00:30:42.150 --> 00:30:48.000

Sarina Pesinkowski: About a larger issue that we spoke about at length before and that I've brought up many times, which is communication and transparency.

233

00:30:49.470 --> 00:30:55.950

Sarina Pesinkowski: For my understanding, actually, I was told this straight up straight by somebody who works in admissions here Johnson admissions has been.

234

00:30:56.400 --> 00:31:10.560

Sarina Pesinkowski: told or believes that one of the residence halls here Johnson is going to reopen but as Sony works as life that's not been communicated and so apparently prospective students are hearing things that you know people going into the next semester working haven't even heard.

235

00:31:11.640 --> 00:31:19.950

Sarina Pesinkowski: And previously when we merged, initially, there was a period of before and after the merger where admissions, and I say this is somebody who worked there.

236

00:31:20.370 --> 00:31:30.900

Sarina Pesinkowski: At one point, and also, who has friends who were the second incoming class of mbu they were being told that there would, of course, their transportation between the two campuses you could take classes, at both.

237

00:31:32.010 --> 00:31:33.690

Sarina Pesinkowski: That wasn't true you couldn't and so.

238

00:31:33.900 --> 00:31:40.650

Sarina Pesinkowski: Not only do I think that this is a novel idea for a lot of reasons, especially for having a home base, but I also think that that communication piece.

239

00:31:40.920 --> 00:31:52.470

Sarina Pesinkowski: Directly correlates into how this could be successful my examples are not perhaps the most applicable for residency housing situations, but I think they like.

240

00:31:54.060 --> 00:31:59.700

Sarina Pesinkowski: highlight exactly where the miscommunications come, and you mentioned prospective students and I just don't.

241

00:32:01.140 --> 00:32:10.020

Sarina Pesinkowski: I have seen this happen, where students are told, one thing and it maybe isn't the driving force between their decision to come to Johnson, but it is something that kind of tips the scales.

242

00:32:10.320 --> 00:32:21.030

Sarina Pesinkowski: In and we use direction, and then it turns out that they were misinformed, or what have you and it's a big letdown for them, and I think that really impacts people's decisions to stay.

243

00:32:22.080 --> 00:32:23.820

Sarina Pesinkowski: So just you know food for thought.

244

00:32:25.590 --> 00:32:30.180

Jason Enser- Dean of Students VTC: I think you bring up a great point that communication is going to be key to all this, because.

245

00:32:30.450 --> 00:32:42.060

Jason Enser- Dean of Students VTC: You know, even on a small campus like Lyndon Johnson we're struggling to make sure we're all in the know so once we become one large university, we need to make sure everybody's on the same page.

246

00:32:42.300 --> 00:32:51.180

Jason Enser- Dean of Students VTC: But I think that's part of the reason why we have groups like this that mo is leading that were breached, one of these key players, so they are aware of what's happening.

247

00:32:53.340 --> 00:32:55.350

Jason Enser- Dean of Students VTC: Mike's had his hand up pretty patiently.

248

00:32:59.460 --> 00:33:13.140

Michael Stevens: So I'll just throw another concept out there sooner, for you, it would also potentially be possible in this type of model where students from one campus might travel one evening to see a speaker on another campus.

249

00:33:13.860 --> 00:33:31.260

Michael Stevens: And that that could be tied, not only to curriculum, or it could just be ways to build Community so that back to Paris point you know those second years that might not have to live on campus there could be still ways within this model that creates that sense of community also.

250

00:33:32.370 --> 00:33:34.770

Jason Enser- Dean of Students VTC: Point I see game stand up yeah.

251

00:33:34.830 --> 00:33:47.040

Gabriel Wilkinson: Is a student Council President, or because, at least at etc. we're spread across multiple campuses I would love to spend a weekend up at Williston just getting to know the people there and figuring stuff out.

252

00:33:48.480 --> 00:33:59.400

Gabriel Wilkinson: I have not I've been able to go up to that campus saying twice in the entire time I've been here and having available housing, be very, very cool.

253

00:34:01.050 --> 00:34:01.530

Jason Enser- Dean of Students VTC: Thanks TIM.

254

00:34:01.620 --> 00:34:02.910

Jason Enser- Dean of Students VTC: I see Hannah's hand up.

255

00:34:05.070 --> 00:34:16.680

Hannah Cerasoli: As an online only student this conversation is only so applicable to me, but I have been resident before on college campuses, but I guess thinking about what you just said.

256

00:34:17.490 --> 00:34:24.510

Hannah Cerasoli: Mike, but I would wonder if this would help we were talking about building community on that last slide that you were on.

257

00:34:24.870 --> 00:34:34.320

Hannah Cerasoli: And thinking of people living in all different places, if you made it available for things like that almost thinking more of like a hotel type situation.

258

00:34:35.100 --> 00:34:42.570

Hannah Cerasoli: I've said all year I wish there were more opportunities for the online students to be involved in the campus because I don't feel.

259

00:34:43.080 --> 00:34:48.510

Hannah Cerasoli: there's no Community for the online only students, as well as there's not great ways for us to connect in with.

260

00:34:48.810 --> 00:35:02.010

Hannah Cerasoli: The communities that are on campus as well, so offering things like this might be a way to connect if they were comfortable or available to be able to go on campus so that might help with some of that community.

261

00:35:04.290 --> 00:35:06.120

Jason Enser- Dean of Students VTC: This is awesome, and this was you know.

262

00:35:06.270 --> 00:35:15.990

Jason Enser- Dean of Students VTC: we've thought of some of these things, but we hadn't thought about that, being based on one campus but then doing some overnight stays at all there's and getting connected so kudos to this group, for you know.

263

00:35:16.500 --> 00:35:25.650

Jason Enser- Dean of Students VTC: pushing us into an even better direction um we've got a bunch of slides, though, so I do want to move on to the next one if there's nothing critical all right.

264

00:35:25.980 --> 00:35:26.790

Sarina Pesinkowski: Well if I could just.

265

00:35:27.150 --> 00:35:28.560

Sarina Pesinkowski: yeah one thing I.

266

00:35:29.880 --> 00:35:41.550

Sarina Pesinkowski: Can I just gave me a really interesting idea, you know as a campus a student we have orientation for freshmen and I'm sure there's some iteration of that for online students, but if the low residency housing were to come into play.

267

00:35:41.970 --> 00:35:48.180

Sarina Pesinkowski: At their could there very well, could be a point in the Semester where there's the opportunity to have them come up if they are able.

268

00:35:48.420 --> 00:35:55.260

Sarina Pesinkowski: and have them do an orientation like thing more like a mixer, I suppose, but if it's early enough in the Semester that there may be isn't or any.

269

00:35:55.770 --> 00:36:02.700

Sarina Pesinkowski: Other students, using a low residency housing, it could also play directly into an opportunity to build that sense of community within the online students.

270

00:36:03.750 --> 00:36:06.000

Sarina Pesinkowski: Just to throw like the orientation ring in there as well.

271

00:36:07.140 --> 00:36:12.330

Jason Enser- Dean of Students VTC: But you're reading my mind, because on a later slide we're going to be talking about orientation and new student.

272

00:36:12.330 --> 00:36:18.030

Jason Enser- Dean of Students VTC: onboarding so keep that in the back your mind serena all right make you mind going to model three.

273

00:36:19.020 --> 00:36:27.690

Jason Enser- Dean of Students VTC: um, so this is our what we're calling our hybrid housing model on it would be longer term housing up to full academic term.

274

00:36:28.230 --> 00:36:37.680

Jason Enser- Dean of Students VTC: But where we would be, and I think this goes back to what people were suggesting we would be a little bit more flexible on additional services, especially the meal plan.

275

00:36:37.980 --> 00:36:47.250

Jason Enser- Dean of Students VTC: Where maybe we're not going to require the meal plan for students, the key to this, though in mike's on here so I'm glad because he's part of the master planning thing is.

276

00:36:47.610 --> 00:36:55.410

Jason Enser- Dean of Students VTC: Our I don't believe our facilities are adequate enough right now to be able to have hundreds of people that are preparing meals.

277

00:36:55.860 --> 00:37:05.610

Jason Enser- Dean of Students VTC: In them without you know some major renovation, so I don't think that what well, I think we would like to be able to do this, I don't think this would be something we could offer.

278

00:37:05.850 --> 00:37:13.650

Jason Enser- Dean of Students VTC: In 2023 but if this is something that's desired I think we should think about this from our master planning perspective so.

279

00:37:14.640 --> 00:37:20.400

Jason Enser- Dean of Students VTC: And I can use an example, right now, our Willesden facility was designed this way because we have no.

280

00:37:20.730 --> 00:37:26.310

Jason Enser- Dean of Students VTC: subject so up there there's only 50 students that live on campus so they financially wouldn't be viable.

281

00:37:26.580 --> 00:37:39.690

Jason Enser- Dean of Students VTC: But there are full fledge kitchens on each of the floor, so I think there's like five or six kitchens for 50 people and they've got microwave fridge so you know everything that you need.

282

00:37:40.260 --> 00:37:49.440

Jason Enser- Dean of Students VTC: And the RD up there has developed like time schedules and when people will be there, making sure students are cleaning it not leaving their dishes out, making sure we're not.

283

00:37:49.740 --> 00:37:59.640

Jason Enser- Dean of Students VTC: Attracting path of pests or things like that, so I think those are all things that would need to come into play, but I think this could potentially happen, but what do you all think about this idea.

284

00:38:01.260 --> 00:38:17.550

Gabriel Wilkinson: Her like it like this is a good middle ground to the full meal plan issue, and I think that'd be cool I definitely think he's a lot of work, obviously a brand off campus has a kitchen per building actually.

285

00:38:18.810 --> 00:38:22.110

Gabriel Wilkinson: that's not entirely true more he has kitchens on each with spores I think.

286

00:38:22.320 --> 00:38:22.710

Gabriel Wilkinson: I think, but.

287

00:38:23.310 --> 00:38:26.280

Gabriel Wilkinson: yeah but their crowd.

288

00:38:26.490 --> 00:38:30.780

Jason Enser- Dean of Students VTC: So to do for what 175 people that one.

289

00:38:30.810 --> 00:38:33.960

Gabriel Wilkinson: yeah it's not definitely not adequate yeah.

290

00:38:35.400 --> 00:38:37.050

Jason Enser- Dean of Students VTC: I see Sophie's got her hand up.

291

00:38:37.950 --> 00:38:41.760

Sophie Zdatny, Chancellor: yeah, and this may be more in the weeds Jason, then you guys are ready to go but.

292

00:38:42.150 --> 00:38:49.110

Sophie Zdatny, Chancellor: I'm is one of the things that your team is thinking about I'm just thinking again if VTech at Randolph, for example, where you've got multiple.

293

00:38:49.530 --> 00:38:59.430

Sophie Zdatny, Chancellor: Residence halls, which is obviously true for the other institutions as well, but you could actually you know, depending on how the economics work obviously there's financial costs to some of these things.

294

00:38:59.760 --> 00:39:04.200

Sophie Zdatny, Chancellor: But you could have different options in different resident schools is that okay thanks.

295

00:39:04.380 --> 00:39:15.630

Jason Enser- Dean of Students VTC: yep that's on our mind as well as you'll see the next one, we talked about family apartment styles these last two would need some construction and some reconfiguration of our current housing options.

296

00:39:17.730 --> 00:39:18.360

Jason Enser- Dean of Students VTC: Sarina.

297

00:39:20.340 --> 00:39:24.180

Sarina Pesinkowski: Just to I think this is a great idea, I think that.

298

00:39:25.410 --> 00:39:28.380

Sarina Pesinkowski: Perhaps there's something to be said for if this were to come into play.

299

00:39:31.950 --> 00:39:39.060

Sarina Pesinkowski: Like what kitchen facilities only be for these people could they be for everyone; I think that's a really large piece of the question for me personally.

300

00:39:40.560 --> 00:39:51.540

Sarina Pesinkowski: Because just because you live on the campus doesn't necessarily like I guess it's also a Sodexo question, because just because if you can buy a single meal, then I guess, this is kind of out of the question, but.

301

00:39:52.650 --> 00:40:00.240

Sarina Pesinkowski: I heard your thought about you know, making sure everything stays clean and people are cleaning up after themselves, and I wonder if there's merit to the thought of.

302

00:40:00.840 --> 00:40:10.080

Sarina Pesinkowski: similar to a resident advisor just somebody who would monitor, or I guess more like a hall monitor for this specifically but somebody who could particularly monitor the kitchen.

303

00:40:11.940 --> 00:40:18.990

Sarina Pesinkowski: And maybe that maybe we don't have I don't know I mean there's a lot to this and if it's not in the budget for that person.

304

00:40:20.010 --> 00:40:31.380

Sarina Pesinkowski: To get a stipend like ra is do perhaps there could be rather than the room being taken off their bill perhaps there could just be some sort of you know.

305

00:40:33.090 --> 00:40:44.370

Sarina Pesinkowski: discount or something which either for their meal plan or for I mean I guess not meal plans I don't think so next I would love that but I'm just some sort of incentive for somebody to help in that sense.

306

00:40:45.000 --> 00:40:59.700

Sarina Pesinkowski: Perhaps in a lesser capacity than an ra or larger capacity, depending on the campuses needs, but I think that could really help in terms of making sure that it stays a clean accessible space if that's a concern which it sounds like it is so.

307

00:41:00.090 --> 00:41:07.410

Jason Enser- Dean of Students VTC: Yes, Sir, as Wilson said I don't think we've gotten into the weeds, but that was why I started with the overall organizational structure of.

308

00:41:07.650 --> 00:41:15.540

Jason Enser- Dean of Students VTC: All those these models will change potentially what the IRAs and the Arby's do there's still a need for that professional living staff.

309

00:41:15.840 --> 00:41:21.150

Jason Enser- Dean of Students VTC: Because that's how you know we talked on the first page about how we develop Community well.

310

00:41:21.630 --> 00:41:30.450

Jason Enser- Dean of Students VTC: We need people that are doing that I don't know if that happens automatically I think you know, making sure that we have people that are providing programs or.

311

00:41:30.660 --> 00:41:37.530

Jason Enser- Dean of Students VTC: You know, when we start thinking about family housing, there are different dynamics that probably not going on, so on programs, but there may be.

312

00:41:38.310 --> 00:41:54.300

Jason Enser- Dean of Students VTC: kid issues or you know parents are disputing, we need to have the right counseling and things like that, so I think we can't get away from the fact that there's always going to be a need to support the people, but I saw Hannah's hand and I saw games hand.

313

00:41:55.890 --> 00:42:10.440

Hannah Cerasoli: I'm actually one of the residence halls that I have lived in before did have a kitchen, we had one kitchen for the entire building, and I completely agree it was always a mess and you usually found that certain people kind of.

314

00:42:11.310 --> 00:42:20.100

Hannah Cerasoli: controlled the space that you found that they were not just in their cooking, but they were also hanging in the space and kind of ended up controlling the space, so I think.

315

00:42:20.280 --> 00:42:31.620

Hannah Cerasoli: really thinking about how that would be a shared space for so many people is important in this situation, and I also wondered, I know you mentioned there's another option but it's I don't know if it would be just for.

316

00:42:32.610 --> 00:42:42.660

Hannah Cerasoli: For anybody even calling it family housing, but I would wonder if there would be a way to maybe do more like sweet style living and they would maybe be able to have a kitchenette.

317

00:42:43.140 --> 00:42:49.650

Hannah Cerasoli: Rather than a full kitchen in that type of a space so you'd still have several people sharing the space, but it would be a smaller group of people.

318

00:42:50.040 --> 00:42:58.200

Hannah Cerasoli: Just a thought I know some of it's a money standpoint, but you might find about works out better for everybody in the long run I'm not sure that.

319

00:42:58.680 --> 00:43:00.180

Jason Enser- Dean of Students VTC: it's a great thought when we get to the.

320

00:43:00.180 --> 00:43:01.260

Jason Enser- Dean of Students VTC: Next, one because.

321

00:43:01.350 --> 00:43:09.150

Jason Enser- Dean of Students VTC: We kept going back and forth, where we get a call it family we're going to call it, important and styles so I'm curious people's opinion on gave.

322

00:43:10.140 --> 00:43:16.440

Gabriel Wilkinson: us an idea I think we could offer this just have it on a first come, first serve basis and only have a certain amount of slots available.

323

00:43:19.050 --> 00:43:25.560

Gabriel Wilkinson: yeah I mean like if you offered say it 10 people in maury could have this on.

324

00:43:26.820 --> 00:43:36.780

Gabriel Wilkinson: That would that could work, I mean most of the time people don't use the kitchen if they're not in the kitchen is used like pretty regularly by people who have meal plans so.

325

00:43:37.080 --> 00:43:53.790

Jason Enser- Dean of Students VTC: that's not a bad idea, especially as a trial run, we say that you know there's X amount, we feel that you can use the kitchen, based on the space and we allow you know that amount like you said first come, first serve to sign up and we see how popular it is and we see what issues arise.

326

00:43:53.940 --> 00:43:56.130

Jason Enser- Dean of Students VTC: Because there are things that I'm thinking of now that.

327

00:43:57.000 --> 00:44:03.060

Jason Enser- Dean of Students VTC: might happen, it might not and there'll be things that I'm not thinking of that we might need to address Wilson.

328

00:44:03.810 --> 00:44:07.200

Wilson Garland: I just wanted to follow up on that game is just in terms of.

329

00:44:08.310 --> 00:44:23.010

Wilson Garland: You know if we had sort of grabbing good go kind of dining options that weren't meal plans, but at least a place to go get something, how would that affect your sense of how what kind of kitchen facility, you would need or those sorts of things I'm just.

330

00:44:23.070 --> 00:44:24.420

Gabriel Wilkinson: me like to go containers.

331

00:44:25.290 --> 00:44:25.740

Wilson Garland: what's that.

332

00:44:26.280 --> 00:44:27.390

Gabriel Wilkinson: mean like it to go container.

333

00:44:27.780 --> 00:44:29.070

Wilson Garland: That could be to go containers.

334

00:44:29.070 --> 00:44:32.640

Gabriel Wilkinson: could be like these we do these on the what we actually do these on the Read off campus.

335

00:44:32.730 --> 00:44:35.610

Wilson Garland: Ah yeah so I guess I'm just curious I don't I.

336

00:44:35.610 --> 00:44:36.390

Wilson Garland: don't know how much.

337

00:44:37.410 --> 00:44:37.620

Gabriel Wilkinson: they're.

338

00:44:38.040 --> 00:44:38.910

Gabriel Wilkinson: very popular.

339

00:44:39.930 --> 00:44:42.990

Dennis Proulx: I think we'll see I think what you're talking about is what is our.

340

00:44:45.030 --> 00:44:51.870

Dennis Proulx: variety of retail dining hall students living in apartments or family style with kitchens.

341

00:44:52.320 --> 00:45:04.680

Dennis Proulx: What is the kind of the variety of options, based on the needs of the students and the academic program and the facility and what I think we're presenting is trying to think of new models.

342

00:45:04.770 --> 00:45:06.180

Dennis Proulx: That don't exist today.

343

00:45:06.330 --> 00:45:12.360

Dennis Proulx: Based on the new hybrid kind of concept and but, but you know meeting needs, I think, is what you're saying.

344

00:45:12.870 --> 00:45:24.270

Dennis Proulx: yeah but the retail operation is another component to this and as is like the kudos the to go cut options that Gabriel showing out of the dining oh.

345

00:45:24.780 --> 00:45:25.320

Wilson Garland: yeah thanks.

346

00:45:28.890 --> 00:45:33.090

Jason Enser- Dean of Students VTC: So this has been a great conversation it's given us more things I think to.

347

00:45:33.120 --> 00:45:35.190

Jason Enser- Dean of Students VTC: kind of build into this model, as we think.

348

00:45:35.190 --> 00:45:37.410

Jason Enser- Dean of Students VTC: about it, why don't we go to model for.

349

00:45:39.570 --> 00:45:51.240

Jason Enser- Dean of Students VTC: um so we went back and forth, of whether to call it a family or apartment style housing, I know, currently at one of the NVU campuses they do have facilities like this, I don't believe.

350

00:45:51.630 --> 00:46:04.920

Jason Enser- Dean of Students VTC: We have anything that would offer this right now and either Randolph or Castleton, but the idea would be 12-month apartment style housing it's not just you come for a term, this is like your home.

351

00:46:05.700 --> 00:46:16.920

Jason Enser- Dean of Students VTC: We were floating out the idea of having it available for married couples or dependent children now when I think of apartment style I think of like two bedrooms and kitchen bathroom.

352

00:46:17.280 --> 00:46:20.970

Jason Enser- Dean of Students VTC: There is the other option that, had it was talking about, instead of having.

353

00:46:21.720 --> 00:46:32.280

Jason Enser- Dean of Students VTC: Actual families, it could be designed more along the lines and sweet style where it's still true more traditional individual students, but they have a shared kitchen space.

354

00:46:32.670 --> 00:46:43.080

Jason Enser- Dean of Students VTC: But any of these options would require a large amount of construction, and I think one of the concerns that the deans of students had, as we were talking about this was.

355

00:46:43.470 --> 00:46:54.750

Jason Enser- Dean of Students VTC: You were probably from a revenue standpoint not going to be able to charge the same amount when you know you have four people in a room or in an apartment we're not going to probably charge mom dad.

356

00:46:55.080 --> 00:47:05.160

Jason Enser- Dean of Students VTC: brother sister each the full housing rate, so I don't know financially if we could do this or not, but we wanted to float this idea by because.

357

00:47:05.550 --> 00:47:15.330

Jason Enser- Dean of Students VTC: there's definitely a request and a one from the people of Vermont for family housing, you know Is this something that we feel that you know we could find.

358

00:47:16.350 --> 00:47:26.880

Jason Enser- Dean of Students VTC: some type of vendor that's willing to do this at a discounted rate or their government agencies there's a lot to it, but I don't think we should not at least put this option on the table to discuss.

359

00:47:27.330 --> 00:47:38.910

Jason Enser- Dean of Students VTC: But I think this is the one that, like the three of us well the six of us on the group probably were like this is going to take the most work and probably be the least financially lucrative but curious what you all think.

360

00:47:40.560 --> 00:47:41.010

Gabriel Wilkinson: I.

361

00:47:42.420 --> 00:47:47.220

Gabriel Wilkinson: don't I mean I don't think this is viable for Randolph I mean the.

362

00:47:48.330 --> 00:48:02.400

Gabriel Wilkinson: The idea behind this, but essentially it just being go get an apartment off campus there's no capacity to build I don't think you'd be worth building additional spaces for this I just don't I don't think there's enough demand.

363

00:48:05.070 --> 00:48:06.390

Gabriel Wilkinson: Answer I'm saying that one.

364

00:48:07.710 --> 00:48:18.240

Jason Enser- Dean of Students VTC: I mean at one thought, what would be gave that a wouldn't be necessarily the need to build additional but retrofit as Sophie was talking about you think about old dorm is not usually.

365

00:48:18.510 --> 00:48:26.520

Jason Enser- Dean of Students VTC: Open or if it's open it's not the full capacity, you know that might be a space to renovate but to your point, there is a significant cost to do that.

366

00:48:26.850 --> 00:48:31.710

Gabriel Wilkinson: yeah I think older definitely would be the most viable I, if I remember correctly it's walls are made of sheet rock.

367

00:48:31.920 --> 00:48:32.370

Gabriel Wilkinson: So you.

368

00:48:32.400 --> 00:48:33.450

Gabriel Wilkinson: Actually, could.

369

00:48:34.950 --> 00:48:38.520

Gabriel Wilkinson: Make like combined rooms together potentially um.

370

00:48:40.200 --> 00:48:41.250

Gabriel Wilkinson: I guess sure.

371

00:48:45.630 --> 00:48:47.610

Jason Enser- Dean of Students VTC: And I'd love to hear your thoughts as.

372

00:48:48.150 --> 00:49:00.870

Jason Enser- Dean of Students VTC: Somebody that doesn't live on campus and you know, representing the nontraditional hybrid student I guess Is this something that you think your cohort might have interest in or.

373

00:49:01.830 --> 00:49:13.440

Hannah Cerasoli: yeah sitting here thinking about it, I was wondering if who your real target audiences for this I guess is kind of what you've really got to decide, like are you looking to offer.

374

00:49:13.800 --> 00:49:25.260

Hannah Cerasoli: Housing that would hopefully be somehow more affordable than going and trying to find an apartment in the nearby area of a campus so that you can make Maybe other.

375

00:49:26.520 --> 00:49:30.060

Hannah Cerasoli: students who would normally have to be online maybe.

376

00:49:31.170 --> 00:49:42.660

Hannah Cerasoli: make it an option to be like intent on campus for them or are you more just looking at like a totally different apartment style like hearing you talk about this, I wondered.

377

00:49:43.230 --> 00:49:55.800

Hannah Cerasoli: other places, I know, like Champlain college, for example, they have off campus apartments that become available for I think junior year they can access those if they want to.

378

00:49:56.880 --> 00:50:03.450

Hannah Cerasoli: So is it maybe that would be something more, that you would want to look into is doing something like that, I think.

379

00:50:04.650 --> 00:50:19.470

Hannah Cerasoli: I think it's a really interesting concept I don't think it's a bad idea to think about apartment housing model but hearing that it's a 12-month style housing, I guess, I think of cost is it going to be more cost efficient for them than finding another apartment.

380

00:50:21.030 --> 00:50:33.060

Hannah Cerasoli: You know what happens when they're done, you know they're going to be out a lot kind of they're going to have to move they're going to be forced to that their whole family so it's an interesting idea I guess I'm.

381

00:50:35.880 --> 00:50:36.390

Hannah Cerasoli: fully.

382

00:50:37.470 --> 00:50:39.450

Jason Enser- Dean of Students VTC: Fair enough, I see gave and then.

383

00:50:40.740 --> 00:50:42.810

Gabriel Wilkinson: So the married couples, I know we could.

384

00:50:42.990 --> 00:50:54.300

Gabriel Wilkinson: Potentially offer them the option to live in a regular dorm but as like a coed kind of thing where instead of forcing them to only be able to have roommates at the same gender.

385

00:50:55.770 --> 00:50:57.330

Jason Enser- Dean of Students VTC: We actually do offer that now.

386

00:50:57.630 --> 00:50:58.020

Gabriel Wilkinson: Oh yeah.

387

00:50:58.290 --> 00:51:02.550

Jason Enser- Dean of Students VTC: yeah we have a student that got married over the break and he.

388

00:51:03.510 --> 00:51:09.990

Jason Enser- Dean of Students VTC: moved in together yeah so we do offer that option but there's there's something to be said about if.

389

00:51:10.050 --> 00:51:11.040

Jason Enser- Dean of Students VTC: I you know I'm married.

390

00:51:11.550 --> 00:51:19.200

Jason Enser- Dean of Students VTC: Well let's say I didn't have kids about trying to share a room and then I'll bathroom and no kitchen or anything with my wife.

391

00:51:21.150 --> 00:51:22.500

Jason Enser- Dean of Students VTC: serena, what do you think.

392

00:51:23.970 --> 00:51:31.590

Sarina Pesinkowski: So I might have I might have missed if you said anything about this, but I'm wondering about if it's 12 months what the dealing with look like.

393

00:51:32.220 --> 00:51:38.310

Sarina Pesinkowski: Because I'm sure that's going to be concerned for many you know and then apartment you pay monthly and with.

394

00:51:39.090 --> 00:51:46.020

Sarina Pesinkowski: With living in the residence halls you or the campus apartments you pay for the Semester, but usually.

395

00:51:46.980 --> 00:51:53.100

Sarina Pesinkowski: From my understanding, I don't I live in a residence halls rather than an apartment but from my understanding.

396

00:51:53.940 --> 00:52:03.180

Sarina Pesinkowski: The summer is a different billing cycle than the semesters so I'm wondering what that would look like and usually also.

397

00:52:03.540 --> 00:52:13.260

Sarina Pesinkowski: From my understanding there's sometimes depending on the situation, a higher cost to live over the summer and one of the campus departments and so I'm wondering how that might factor in.

398

00:52:14.790 --> 00:52:21.900

Sarina Pesinkowski: And then My other question was what if we're talking about a long-term couple or an engaged couple rather than a married couple.

399

00:52:23.310 --> 00:52:27.570

Sarina Pesinkowski: Just because I know I know somebody here at Johnson who.

400

00:52:28.200 --> 00:52:40.140

Sarina Pesinkowski: has engaged, but they are not married yet, and she decided to stay here at Johnson, for her graduate program specifically because it was the only school in Vermont that she was accepted to that would allow her fiancé to live with her.

401

00:52:41.850 --> 00:52:49.200

Sarina Pesinkowski: And so I don't know if Johnson was her first choice, but I know that that was her decision that was specifically her deciding factor, so I think that.

402

00:52:50.310 --> 00:53:05.790

Sarina Pesinkowski: Depending on how much we want people to use this program it might be beneficial to perhaps expand on what who we decide can live there, or at least you know have some like fine print, perhaps even if we don't advertise it so just.

403

00:53:06.540 --> 00:53:06.810

Jason Enser- Dean of Students VTC: yeah.

404

00:53:06.840 --> 00:53:11.910

Sarina Pesinkowski: we're working on a definition of what we call a family, and we may not even use the word family.

405

00:53:12.030 --> 00:53:14.670

Jason Enser- Dean of Students VTC: Your apartment so Sophie some thought.

406

00:53:16.140 --> 00:53:27.570

Sophie Zdatny, Chancellor: yeah this was more just for your group as a whole, I mean one of the things, given the housing situation and in Vermont and we've really struggled and we're not alone other.

407

00:53:28.590 --> 00:53:38.880

Sophie Zdatny, Chancellor: colleges and universities have run into the same problem with housing for employees, I just wanted to flag, and I'd be interested in the in the students' thoughts on this, but if we were to have.

408

00:53:39.510 --> 00:53:47.730

Sophie Zdatny, Chancellor: Make apartments available to faculty or staff to actually live on campus and then be part of the Community that way and I raised it, because actually when I.

409

00:53:48.060 --> 00:53:57.840

Sophie Zdatny, Chancellor: got married my husband was teaching at rice university and that's what they did they have a sort of residence hall system which they call colleges, but each college had to.

410

00:53:58.530 --> 00:54:04.350

Sophie Zdatny, Chancellor: faculty that that lived in with the students and then would eat you know even the resident tool and stuff like that.

411

00:54:04.680 --> 00:54:10.890

Sophie Zdatny, Chancellor: And I thought it was a really nice a nice thing to do, we you know we you know, had groups of students, that we.

412

00:54:11.340 --> 00:54:24.360

Sophie Zdatny, Chancellor: You know, were assigned to us that we went out and had ice cream and did things where that was it was kind of fun, but I would just be curious for the students at something we have talked about sort of on the facilities and but if the students have thoughts about.

413

00:54:25.410 --> 00:54:30.510

Sophie Zdatny, Chancellor: You know that, having faculty or staff actually living on campus with students.

414

00:54:31.800 --> 00:54:35.070

Sophie Zdatny, Chancellor: What do you think that would look like and whether that's something you'd be interested in.

415

00:54:37.500 --> 00:54:41.310

Gabriel Wilkinson: I think that's a pretty cool concept I don't know if I'd want them living in like the same dorm buildings.

416

00:54:42.480 --> 00:54:51.570

Gabriel Wilkinson: But I'm having on like all like all semester on site cat staff would be pretty cool getting to know them better.

417

00:54:52.620 --> 00:54:57.870

Sophie Zdatny, Chancellor: I did have to go tell the football players you lived above us that they need to turn the music down occasionally that was fun.

418

00:55:00.480 --> 00:55:01.230

This is good.

419

00:55:02.880 --> 00:55:03.120

Jason Enser- Dean of Students VTC: Guy.

420

00:55:03.180 --> 00:55:04.380

Dennis Proulx: I was just gonna add to the.

421

00:55:04.410 --> 00:55:20.790

Dennis Proulx: Diversity equity inclusion that an inclusive environment where there are people with lots of different profiles, I think, is the future, I think, as we look at gender neutral housing as a same sex and opposite sex in people on a non-binary.

422

00:55:22.200 --> 00:55:22.800

Dennis Proulx: schedule.

423

00:55:23.820 --> 00:55:35.370

Dennis Proulx: Spectrum are all living with each other, and I think that's going to be the future, and so the idea of what we know today will be different five to 10 years from now, so I also think that we need to think through.

424

00:55:36.450 --> 00:55:43.140

Dennis Proulx: The trajectory of where students interest in desire and profile will be in the long run.

425

00:55:45.120 --> 00:55:46.080

And I think.

426

00:55:47.430 --> 00:55:54.900

Sarina Pesinkowski: what's so he's talking about is a really great idea but there's a lot of nuance that goes into it, for an eye, I just wonder if it's something.

427

00:55:56.340 --> 00:56:03.420

Sarina Pesinkowski: That can be I don't think it's easily achieved is the only thing that I have to say about it in that sense that I think it could be.

428

00:56:04.020 --> 00:56:17.280

Sarina Pesinkowski: A little more problematic for some because there's to an extent it feels like you're being watched and one of the whether or not that's true I'm just it doesn't even really matter it.

429

00:56:18.480 --> 00:56:26.280

Sarina Pesinkowski: It feels different to know that there's someone employed by the College there for all intents and purposes kind of to monitor you.

430

00:56:27.090 --> 00:56:39.270

Sarina Pesinkowski: With Ariza ha's it's very different since they're your peers, in a sense, even if they're in a leadership role or a graduate student, because you know there's still a student if we're talking about a professor.

431

00:56:41.280 --> 00:56:45.120

Sarina Pesinkowski: or someone who's in that type of role, I think that there's also.

432

00:56:45.900 --> 00:56:49.920

Sarina Pesinkowski: there's likely to be a thought process ammonia at least a few students that.

433

00:56:50.130 --> 00:57:00.840

Sarina Pesinkowski: Oh, maybe I can get on their good side and then they'll grade me better, so I think that, whether or not that again that's probably not true, but it's probably likely to be a big part of the thought process for students, especially freshman.

434

00:57:01.440 --> 00:57:08.490

Sarina Pesinkowski: um so I'm just wondering about like the actual viability of that and comfort level for students.

435

00:57:10.350 --> 00:57:14.550

Sarina Pesinkowski: But I mean that's you know individual differences so.

436

00:57:16.050 --> 00:57:20.220

Jason Enser- Dean of Students VTC: See henan a game, but I, but I want to read the comment in the chat.

437

00:57:21.180 --> 00:57:27.330

Jason Enser- Dean of Students VTC: came from aurora one thing that comes up for me, is using the word family is what might be considered nontraditional families.

438

00:57:27.660 --> 00:57:37.740

Jason Enser- Dean of Students VTC: With a family is comes in many forms and we have different needs di would be very important to consider both thinking what Sabrina said and Dennis's point very good point yep.

439

00:57:38.760 --> 00:57:39.300

Jason Enser- Dean of Students VTC: got Hannah.

440

00:57:40.530 --> 00:57:46.260

Hannah Cerasoli: I agree with that, or even though that wasn't what I was gonna speak on thinking of what Sophie had brought up.

441

00:57:47.400 --> 00:57:54.060

Hannah Cerasoli: I would again be curious about the target, I would, I guess, I think of it.

442

00:57:54.600 --> 00:57:59.790

Hannah Cerasoli: I'm so I work in a in a school district and that's what I'm going to be going into is teaching.

443

00:58:00.090 --> 00:58:07.410

Hannah Cerasoli: And the conversation has happened a lot about what are some different kinds of benefits that we can offer to bring staff and keep staff here.

444

00:58:07.590 --> 00:58:20.580

Hannah Cerasoli: So thinking of it with that hat on I would wonder if this would be a way that you could offer maybe some competitively priced housing options to bring and keep staff here for you.

445

00:58:21.780 --> 00:58:32.040

Hannah Cerasoli: That would just be a really unique situation, whether they were living with students like you were talking about or even if there was an alternative placement that was able to house staff.

446

00:58:32.130 --> 00:58:33.060

Hannah Cerasoli: Where they could meet.

447

00:58:33.540 --> 00:58:43.830

Hannah Cerasoli: Staff create new relationships with people, especially if they were moving to the area, then I think it would be a really unique opportunity, and like an advertising point for the College.

448

00:58:45.120 --> 00:58:45.270

Jason Enser- Dean of Students VTC: yeah.

449

00:58:45.540 --> 00:58:58.470

Jason Enser- Dean of Students VTC: The big thing that you said, though, that I want to make sure that we all are in agreement on is that it, there is a cost to the institution, so we would need to be charging and we would have to figure out what the right point is because I would.

450

00:58:59.250 --> 00:59:05.100

Jason Enser- Dean of Students VTC: hate to get to the point where we're just offering free housing unless there's some way that we're subsidizing that.

451

00:59:05.580 --> 00:59:19.680

Jason Enser- Dean of Students VTC: Because there, there is a cost, because we quite frequently get asked Oh, can we just give a faculty Member room on campus so that way they can get there, you know find their place and I always say sure, but there needs to be a charge to that.

452

00:59:20.400 --> 00:59:33.780

Hannah Cerasoli: But come become parents lovely to what may be in the area, you might be able to offer what is considered a good deal because we all know the cost of apartments right now is atrocious so you never know there might be.

453

00:59:34.650 --> 00:59:39.300

Hannah Cerasoli: A way that it still might paint a nice picture in comparison to the other option.

454

00:59:40.170 --> 00:59:43.230

Jason Enser- Dean of Students VTC: Absolutely gave any final thoughts before we move on.

455

00:59:43.470 --> 00:59:50.370

Gabriel Wilkinson: I don't think I would feel comfortable living in the same building as like one of my teachers, it just.

456

00:59:51.510 --> 00:59:59.880

Gabriel Wilkinson: Especially something like I've had teachers in the past, I did not like, if I lived across the hall from like some one of the teachers, I did not like.

457

01:00:00.360 --> 01:00:14.730

Gabriel Wilkinson: I would not feel comfortable because I'm going to probably crap talking in my spare time I'm going to be talking about friends the frustrations about it, I would not feel like I can do that I have that freedom to do that because they might hear me or.

458

01:00:15.810 --> 01:00:24.150

Gabriel Wilkinson: It somehow could get back to them if it's could I think you'd be researching also cause students to have just a different mindset, for how we.

459

01:00:24.960 --> 01:00:30.060

Gabriel Wilkinson: Like handle everything like people being loud at night that's normal.

460

01:00:30.600 --> 01:00:46.950

Gabriel Wilkinson: Like most of us have really screwed up sleep schedules are we're up to like two or 3am every single night and nobody cares if you make noise, but a professor probably goes to bed at a normal hour comparatively speaking and would be more likely to have issues.

461

01:00:48.090 --> 01:00:56.130

Jason Enser- Dean of Students VTC: Great points gave I think the one thing that Sophie might have been getting at is if we have this family or apartment style housing.

462

01:00:56.370 --> 01:01:03.270

Jason Enser- Dean of Students VTC: The people that are going to be attracted to going there are probably going to be going to bed at a more normal hour I don't think it's going to be like.

463

01:01:03.540 --> 01:01:14.790

Jason Enser- Dean of Students VTC: You know, gave it his buddies are going to want to get this apartment I think it's going to be people that are more on that schedule, but even those people if they're in the same classes of that Professor you bring up good points that there might.

464

01:01:14.790 --> 01:01:15.210

Gabriel Wilkinson: Be.

465

01:01:15.480 --> 01:01:16.590

Jason Enser- Dean of Students VTC: A little bit of a conflict of.

466

01:01:16.590 --> 01:01:17.280

Jason Enser- Dean of Students VTC: Interest there.

467

01:01:19.890 --> 01:01:27.990

Jason Enser- Dean of Students VTC: All right, we're past seven and I've got like three or four more slides so nothing else I'd like to move on, that was our housing.

468

01:01:28.230 --> 01:01:38.760

Jason Enser- Dean of Students VTC: So I'd like to get into some of the other areas which we have not done design on, but we've done discovery and we'd like to just throw out some basic questions for you, on.

469

01:01:39.390 --> 01:01:47.010

Jason Enser- Dean of Students VTC: discovery of what we think will probably be moving into design on making sure this feels like it's their appropriate needs for students.

470

01:01:47.280 --> 01:01:55.020

Jason Enser- Dean of Students VTC: So the first is counseling and health services so physical and mental health and so we're curious what students.

471

01:01:55.800 --> 01:02:04.230

Jason Enser- Dean of Students VTC: Currently field services are like and what you'd like to see one based on campus face physical health services.

472

01:02:04.620 --> 01:02:19.470

Jason Enser- Dean of Students VTC: To based on campus based mental health services and then Tele health services so options for both physical and mental health, where you don't have to come see somebody on a campus but you could get those services over zoom or the phone so.

473

01:02:19.980 --> 01:02:29.850

Jason Enser- Dean of Students VTC: If you could just briefly we'll keep it to about five minutes, so we can get the each side, let us know your kind of general thoughts on these three areas gape.

474

01:02:30.480 --> 01:02:39.030

Gabriel Wilkinson: um I would just a random thing I'd love to see like some kind of pharmacy system setup so we can get our education directly shipped to campus.

475

01:02:40.050 --> 01:02:49.920

Gabriel Wilkinson: Even if it was like in collaboration with like the local right or something like that making that system like getting us to some place to be very huge for some students, especially those who don't have cars.

476

01:02:51.840 --> 01:02:57.630

Gabriel Wilkinson: I walking to Randolph is not a viable thing for most people are too far away.

477

01:02:59.370 --> 01:03:05.580

Gabriel Wilkinson: As far as mental health services go I think CS and three offers a decent amount of that stuff.

478

01:03:06.780 --> 01:03:11.520

Gabriel Wilkinson: I don't know if they have I don't think they have therapists on staff or anything but.

479

01:03:11.610 --> 01:03:23.130

Jason Enser- Dean of Students VTC: there's one at random there's one licensed mental health counselor and then we have some contractual counselors, but there are some other campuses that have full-fledged licensed health mental health counselors.

480

01:03:23.820 --> 01:03:29.580

Jason Enser- Dean of Students VTC: That that's their full-time job, where we don't so there's a little disparity campus to campus game and.

481

01:03:30.000 --> 01:03:30.510

Gabriel Wilkinson: Tele health.

482

01:03:31.560 --> 01:03:31.830

Gabriel Wilkinson: And this.

483

01:03:32.400 --> 01:03:46.470

Jason Enser- Dean of Students VTC: would be like let's say you so Mary Catherine, for us, would be the person you'd contact if you wanted to get connected with the counselor and so instead of having counselor that you would come and meet with.

484

01:03:47.280 --> 01:03:54.810

Jason Enser- Dean of Students VTC: Somebody you would be connected with over zoom and same thing with physical health services, instead of coming to see a nurse on campus.

485

01:03:55.020 --> 01:04:02.490

Jason Enser- Dean of Students VTC: It would be somebody you would connect with over zoom and you would explain, you know my throat turning and they would talk to you about what you could or couldn't do.

486

01:04:03.120 --> 01:04:04.260

Gabriel Wilkinson: So, like an onsite doctor.

487

01:04:05.010 --> 01:04:08.370

Jason Enser- Dean of Students VTC: yeah so basically onsite versus remote.

488

01:04:08.730 --> 01:04:10.230

Gabriel Wilkinson: And it will have more of those currently doing.

489

01:04:10.740 --> 01:04:22.200

Jason Enser- Dean of Students VTC: We have a nurse on site Sarah Billings bird that you can go see she's not actually she's a doctor she's not a prescriber though so to your point of getting your medication on campus.

490

01:04:22.440 --> 01:04:33.840

Jason Enser- Dean of Students VTC: I don't know if she could help you with that, but she can get you connected with Gifford but that that's an interesting concept um I do want to read, I saw where the chat go I lost it.

491

01:04:35.160 --> 01:04:36.540

Jason Enser- Dean of Students VTC: Oh, there we go I'm.

492

01:04:37.860 --> 01:04:45.630

Jason Enser- Dean of Students VTC: Hannah said I'm not sure what, if anything is available for online students, so I wonder if Tele health services would be available for online students.

493

01:04:46.440 --> 01:05:01.620

Jason Enser- Dean of Students VTC: As well and yeah obviously that's something that I think we're going to need to think about because not only just online, but students, that are not campus based and coming regularly, we need to provide those services for and then serena had her hand up so if you go to her next.

494

01:05:03.270 --> 01:05:05.850

Sarina Pesinkowski: Well I'm wondering if this means that there's.

495

01:05:07.110 --> 01:05:14.610

Sarina Pesinkowski: What does it mean for somewhere that doesn't have that in place already, because Johnson specifically I'm in my fifth-year and.

496

01:05:15.630 --> 01:05:29.190

Sarina Pesinkowski: There is no health services here on the campus and I think it would be beneficial, it would mean a lot to a lot of people coven notwithstanding all those interesting to wonder how that would play, and with that as well, but I'm.

497

01:05:30.450 --> 01:05:30.840

Sarina Pesinkowski: there.

498

01:05:36.300 --> 01:05:41.070

Jason Enser- Dean of Students VTC: I don't know if you cut out or non-amount here and use arena, I think that's part of the.

499

01:05:41.400 --> 01:05:41.790

lead.

500

01:05:43.380 --> 01:05:43.710

Sarina Pesinkowski: What.

501

01:05:44.490 --> 01:05:45.720

Jason Enser- Dean of Students VTC: If you cut out serena.

502

01:05:46.740 --> 01:05:47.040

Sarina Pesinkowski: Oh.

503

01:05:48.090 --> 01:06:03.540

Sarina Pesinkowski: Well, I was just saying that um Johnson doesn't have a campus base camp health services, and it would be very helpful, and it also just seems odd to me that we wouldn't have that when the closest places in Morrisville whether you're talking about a doctor or a hospital.

504

01:06:04.620 --> 01:06:10.410

Sarina Pesinkowski: And that wasn't really necessarily a concern for me going into college, but that was a huge concern for my family and.

505

01:06:11.610 --> 01:06:26.040

Sarina Pesinkowski: Some students have families that are much more involved in the decision making than mine, so I want you to how that plays into it and also if it's not something that's possible making sure that there's some sort of school sponsored solution.

506

01:06:27.120 --> 01:06:32.250

Sarina Pesinkowski: Johnson has a solution in place where the through our wellness Center, which is our counseling services on campus.

507

01:06:32.640 --> 01:06:49.200

Sarina Pesinkowski: They have a partnership with a doctor's office and Morrisville, and they can even provide transportation, if need be, but that assumes that everybody's schedule lines up and some people could be sick as a dog and would not miss class some to go to a doctor, so I just.

508

01:06:50.820 --> 01:06:58.920

Sarina Pesinkowski: I wonder if we can strengthen the solutions if there if it's impossible to have campus-based health services.

509

01:07:00.990 --> 01:07:15.510

Jason Enser- Dean of Students VTC: I think that's all on the table for us and that's part of what we did discovery on that there are inequities campus the campus so that's what we're trying to tighten up but also figure out what's needed for the whole university I see Dennis and.

510

01:07:16.080 --> 01:07:29.520

Dennis Proulx: I just wanted to talk about the, the only way we're going to address like what Hannah's talking about being online, the only way we're going to address the needs of all the students, depending on what modality there in is through a Tele health.

511

01:07:30.060 --> 01:07:37.590

Dennis Proulx: opportunity I think whether that's a third party or whether that's our own employees, providing the service is also this idea.

512

01:07:37.920 --> 01:07:48.870

Dennis Proulx: That is least I think on all the campuses that we cannot find enough profiles of counselors in health clinicians to meet the identities of all of our students in by.

513

01:07:49.140 --> 01:08:03.540

Dennis Proulx: Using a Tele health approach we expand nationally, perhaps to the base of counselors and other support people we might get to support all of our students with lots of different identities that's all I wanted to say.

514

01:08:03.870 --> 01:08:11.010

Jason Enser- Dean of Students VTC: yeah no that's a great point and to Dennis is know Tele health could be external or it could be with.

515

01:08:11.010 --> 01:08:17.700

Jason Enser- Dean of Students VTC: Our resources currently so you know some of the campuses have full-fledged mental health offices.

516

01:08:17.910 --> 01:08:35.430

Jason Enser- Dean of Students VTC: Maybe there's you know counselors from Castle 10 that are available online where vpc has a full-fledged Shell service office, maybe our nurses available to all students online, because we need to think about the fact that we're no longer just campus locations were one university.

517

01:08:37.590 --> 01:08:50.700

Jason Enser- Dean of Students VTC: Any again I these other areas, we have not done design, so I'm just wanted to get an initial thoughts and I know we only have 730 so anything else on health services before we go to the next one.

518

01:08:52.320 --> 01:08:54.330

Jason Enser- Dean of Students VTC: Alright Meg if you don't mind can us up.

519

01:08:55.530 --> 01:09:07.950

Jason Enser- Dean of Students VTC: on new student onboarding so this would be everything that we do from the point that you've become a student all the way through your first year, so this would include orientations.

520

01:09:08.460 --> 01:09:15.420

Jason Enser- Dean of Students VTC: first year experience welcome weekends anything throughout the first semester, to make sure.

521

01:09:15.870 --> 01:09:25.230

Jason Enser- Dean of Students VTC: You get connected to other students; you get all the important information on so that you're successful as a student so.

522

01:09:25.530 --> 01:09:36.780

Jason Enser- Dean of Students VTC: Things that we've thought about already is orientation, should we be continuing to do in person orientations, should we be doing online orientations, should we be offering both.

523

01:09:37.170 --> 01:09:53.250

Jason Enser- Dean of Students VTC: What should the first-year experience look like some of the campuses have actual credit bearing first year experience courses other campuses do not some have online first year experience modules through canvas so again, this is very.

524

01:09:54.300 --> 01:10:04.140

Jason Enser- Dean of Students VTC: High Level just what are you think would be the best for you to be successful haven't gone through this process already thinking about us being one university.

525

01:10:05.760 --> 01:10:17.910

Gabriel Wilkinson: I would highly recommend keeping the inverse in orientation that was a huge experience for me I'm now applying to be an orientation later for this coming year.

526

01:10:18.720 --> 01:10:29.670

Gabriel Wilkinson: It that orientation I've met my first roommate we met each other became friends and we're like yeah let's be remiss the other I met all my friends, I currently talk to.

527

01:10:30.360 --> 01:10:43.320

Gabriel Wilkinson: um and I got like used to the school in general, and I was it got me super excited to actually come here as a full-time student if I think it provides.

528

01:10:43.350 --> 01:10:47.100

Gabriel Wilkinson: Such a good opportunity for people to socialize and meet each other.

529

01:10:48.390 --> 01:10:53.760

Gabriel Wilkinson: So it forces them to not just be like outcasts as I've seen with a lot of other colleges.

530

01:10:55.440 --> 01:11:02.340

Gabriel Wilkinson: Where everybody's kind of just left to fend for themselves and you get kids who don't socialize with anyone and they kind of just end up being on their own and.

531

01:11:04.170 --> 01:11:04.980

Gabriel Wilkinson: that's never good.

532

01:11:06.330 --> 01:11:09.090

Jason Enser- Dean of Students VTC: Thanks Kim I see serena and then Perry.

533

01:11:11.250 --> 01:11:21.360

Sarina Pesinkowski: I won't get too into my ideas on orientation just because some of them are very campus specific, but I absolutely think that in person campus orientation is vital.

534

01:11:22.560 --> 01:11:30.270

Sarina Pesinkowski: Both to keeping students here, for you know through graduation and even just through that first year it's directly tied into retention, and I think.

535

01:11:30.810 --> 01:11:43.050

Sarina Pesinkowski: Online is great for those who can't make it but in person is very vital, especially on a campus that has a lot of local students, I would recommend keeping it and strengthening it were possible, as well.

536

01:11:44.880 --> 01:11:45.450

Jason Enser- Dean of Students VTC: experience.

537

01:11:45.570 --> 01:11:45.990

Perry.

538

01:11:47.220 --> 01:11:57.540

Perry Ragouzis: I know here on the campus on campus we have an extremely robust orientation and first year experience, as you said, we're we have those classes that are credit bearing.

539

01:11:58.620 --> 01:12:10.800

Perry Ragouzis: courses, we have programs in place to get students involved on campus throughout the year um and, and that is what cultivates a I think healthy Community almost instantly.

540

01:12:11.160 --> 01:12:14.100

Perry Ragouzis: Like coming from Colorado knowing nothing about the.

541

01:12:14.580 --> 01:12:16.920

Perry Ragouzis: The campus who is going to be here.

542

01:12:18.210 --> 01:12:24.690

Perry Ragouzis: With the orientation alone I don't think I would be where I am it did come from the continued.

543

01:12:25.620 --> 01:12:42.180

Perry Ragouzis: first year experience that orientation was not a standalone experience the student leaders, who I met at orientation continued to meet with me and that same group of students weekly um and I think that there's something to be said for.

544

01:12:43.650 --> 01:12:51.030

Perry Ragouzis: students who are completely going into a new world and it's completely they feel like nothing is going to be stable and then from day one.

545

01:12:51.300 --> 01:13:02.010

Perry Ragouzis: There are people in their lives groups in their lives and courses in their lives that create that kind of element of security and a foundation upon which they can.

546

01:13:02.730 --> 01:13:08.250

Perry Ragouzis: kind of kind of dig in roots and then get more acclimated to the campus so.

547

01:13:08.580 --> 01:13:22.050

Perry Ragouzis: So I think that it's important that it is sustained throughout the entire first year from orientation to the end of the year that there is something that that that unites all freshmen behind one common, shared experience.

548

01:13:23.100 --> 01:13:23.640

Jason Enser- Dean of Students VTC: experience.

549

01:13:23.700 --> 01:13:25.170

Jason Enser- Dean of Students VTC: I just want to read the.

550

01:13:25.200 --> 01:13:35.070

Jason Enser- Dean of Students VTC: comments and before I move over Yasmin Hannah said, we need more orientation Community building opportunities for nontraditional online off campus students.

551

01:13:35.340 --> 01:13:41.490

Jason Enser- Dean of Students VTC: I would suggest, maybe something hybrid because if they fit into that category, they may not be available common person.

552

01:13:41.790 --> 01:13:49.590

Jason Enser- Dean of Students VTC: However, currently it feels quite isolating with very few opportunities on both ends of the spectrum great points absolutely I agree with that.

553

01:13:49.920 --> 01:13:56.670

Jason Enser- Dean of Students VTC: And then most the question, do you think there's room for both online and in person orientations and I'll explain.

554

01:13:57.210 --> 01:14:08.370

Jason Enser- Dean of Students VTC: What mo might be getting up that we're trying we're testing out this year, etc, we had gone to completely online orientation, because of the pandemic, the last two years, this year we were going to go back to.

555

01:14:08.820 --> 01:14:16.620

Jason Enser- Dean of Students VTC: fully in person and we got some feedback that students, like the online option so we're offering two options.

556

01:14:17.340 --> 01:14:26.280

Jason Enser- Dean of Students VTC: In person in Randolph one day and online, and you can pick and choose if you're in Randolph you could go to that or even if you're.

557

01:14:26.850 --> 01:14:36.090

Jason Enser- Dean of Students VTC: At a remote nursing site, you can go to that, or you could do the online and even if you're in person living on campus and Randolph you don't want to come to that you can go to that.

558

01:14:36.480 --> 01:14:43.350

Jason Enser- Dean of Students VTC: I do want to see how that goes, because I agree with GABE there is something to be said about meeting people in person, but I want to.

559

01:14:43.680 --> 01:14:55.230

Jason Enser- Dean of Students VTC: Get the results of feedback to people feel they still get the connections without that in person, but I think you know, to have this point, we have to be flexible and what we offer So yes, me.

560

01:14:56.580 --> 01:15:10.020

Yasmine Ziesler: I just wanted to put another related question out there, because I really appreciate what everybody said about the Community building right meeting friends meeting potential roommate the peer leaders Hannah you're talking about that, even for nontraditional students.

561

01:15:10.980 --> 01:15:22.200

Yasmine Ziesler: I'm curious what you all think about if you've experienced it or you think there's something that students would benefit from in terms of orientation, the guidance from a professor.

562

01:15:23.070 --> 01:15:32.310

Yasmine Ziesler: or guidance it's more about sort of doing your academic work how and when do you think that that's sort of most helpful for students.

563

01:15:34.890 --> 01:15:37.140

Yasmine Ziesler: And who do you who do you best learn that from.

564

01:15:39.960 --> 01:15:40.860

Any thoughts on that.

565

01:15:46.830 --> 01:15:53.250

Jason Enser- Dean of Students VTC: We got a comment in the chat bar from serena I think there should be more intention to make orientation feel.

566

01:15:53.550 --> 01:16:01.500

Jason Enser- Dean of Students VTC: Less like a chore there seems to be a push to make it more personalized and have weekly meetings well that's great for some it's stressful for many.

567

01:16:01.890 --> 01:16:15.300

Jason Enser- Dean of Students VTC: I think, keeping orientation as a sort of weekend intensive is best, both as a student and oh well, that's another good point about how long it is what the intensity of it is, I think we all operate a little bit differently.

568

01:16:16.590 --> 01:16:21.630

Jason Enser- Dean of Students VTC: Anybody want to I'll get to you in just one second gave I see your hand up anybody want to.

569

01:16:22.110 --> 01:16:37.710

Jason Enser- Dean of Students VTC: answer yes means questioned about kind of the academic tie in for orientation I think most of us don't do too much, except for probably having our academic teams are provost there, I think we tie the faculty in two more like welcome weekend so.

570

01:16:37.920 --> 01:16:38.670

Gabriel Wilkinson: Do you feel that.

571

01:16:39.000 --> 01:16:45.840

Jason Enser- Dean of Students VTC: I think, as means getting to do you feel that should be happening, sooner or do you feel you have the adequate support with orientation as.

572

01:16:46.230 --> 01:16:54.570

Gabriel Wilkinson: I think welcome we get is fine, I experience you there's not really a room in the initial meeting.

573

01:16:55.890 --> 01:17:02.130

Gabriel Wilkinson: During orientation week till or that during the orientation like weekend to meet your professors and stuff.

574

01:17:02.850 --> 01:17:13.110

Gabriel Wilkinson: That you're kind of doing all sorts of stuff already, and that I don't think there's really a spot for that and I don't feel like I don't feel like it's worth dragging professors back in for one day.

575

01:17:15.750 --> 01:17:20.610

Gabriel Wilkinson: Just to have that experience when they can just meet them in person would cost us through that sure.

576

01:17:21.270 --> 01:17:23.040

Jason Enser- Dean of Students VTC: we've got a parent and Hannah.

577

01:17:24.240 --> 01:17:32.700

Perry Ragouzis: I know at Castle 10 we have our success coaches and also our orientation professors for our connection seminar.

578

01:17:33.240 --> 01:17:53.370

Perry Ragouzis: And so that orientation weekend students actually do get to both meet with a staff member that they have met with over the summer online and then in person with a faculty Member, along with a student who has worked with both that success coach and orientation Professor.

579

01:17:54.630 --> 01:18:06.060

Perry Ragouzis: And I think that is important, I think that being able to orientation weekend meet not all your professors, but one Professor does allow for students to not see it as something that's so scary.

580

01:18:07.110 --> 01:18:12.090

Perry Ragouzis: I think that coming into position and just seeing kind of you know we're all people we're all human beings.

581

01:18:12.570 --> 01:18:23.670

Perry Ragouzis: On that's that alleviates a lot of tension and the faster you're able to alleviate that tension, I think the more fun orientation weekend can start to be so, I do think that's important yeah.

582

01:18:27.660 --> 01:18:37.170

Hannah Cerasoli: um I guess that kind of was interesting to hear Perry kind of like change my thoughts, a little bit, but initially I, my first thoughts were.

583

01:18:37.530 --> 01:18:48.390

Hannah Cerasoli: Every teacher is so different that I think it's really tricky to feel super prepared, I guess, for that when every class is so different it's run differently.

584

01:18:49.350 --> 01:18:56.790

Hannah Cerasoli: I think one of the best examples that I have is actually from my senior seminar class that I'm in currently.

585

01:18:57.060 --> 01:19:05.640

Hannah Cerasoli: The teacher was very upfront from the get-go she had optional zoom meetings for us to interact with each other, as well as meet her.

586

01:19:06.030 --> 01:19:14.790

Hannah Cerasoli: And she also had feedback from previous students that she had compiled with advice from them to us on how to prepare for the class.

587

01:19:15.060 --> 01:19:26.790

Hannah Cerasoli: So, even though I know that's on the total opposite end of the spectrum, from beginning I think there would be a way to apply that for incoming students and I think doing it and I may be more.

588

01:19:29.460 --> 01:19:37.710

Hannah Cerasoli: More laid-back way of like this is optional, if you want to come and meet people I you know I found that really beneficial, so I think that.

589

01:19:38.040 --> 01:19:49.710

Hannah Cerasoli: You know, there is a way to do it without making it feel like work, but with the understanding that everybody's completely different there's really not going to be a way to prepare for that, because every class is so unique.

590

01:19:51.300 --> 01:19:51.660

Thanks.

591

01:19:53.190 --> 01:19:55.950

Jason Enser- Dean of Students VTC: game you've had your hand up, but you still got it up.

592

01:19:56.430 --> 01:19:56.850

So.

593

01:19:57.930 --> 01:20:02.640

Gabriel Wilkinson: my brother actually attended the online orientation he doesn't go here anymore.

594

01:20:03.660 --> 01:20:16.770

Gabriel Wilkinson: He did not be as a very social person he did not make any friends; I don't think it worked it, I know that whole semester we did it was online students were pretty isolated from each other, I.

595

01:20:18.060 --> 01:20:22.830

Gabriel Wilkinson: I don't know of any instances of friend groups who actually were able to form because of that.

596

01:20:24.390 --> 01:20:34.140

Gabriel Wilkinson: I'm not sure exactly what was going on there I don't if it's a discussion-based stuff where you do they'll take you know you guys don't any discussion posts kind of thing I don't think that's a good idea.

597

01:20:36.060 --> 01:20:37.440

Gabriel Wilkinson: I know, nobody likes rating.

598

01:20:40.140 --> 01:20:48.570

Gabriel Wilkinson: Discussions are generally pretty unlike fund most students, as far as I can tell, but the just the online orientation just it didn't work.

599

01:20:49.020 --> 01:21:03.870

Gabriel Wilkinson: I don't know how we could make that work a little better, but something definitely needs to change, I mean, at least for the computer majors we could probably do some stuff with video games and that would help get people to meet together better.

600

01:21:04.890 --> 01:21:09.990

Gabriel Wilkinson: I may be getting the clubs involved could also be good clubs are usually a really good way to bond with our people.

601

01:21:11.550 --> 01:21:20.850

Jason Enser- Dean of Students VTC: yeah I struggled to build that connection, I think we got the important information out to the students to the online, but there wasn't that you know human connection.

602

01:21:24.480 --> 01:21:28.800

Jason Enser- Dean of Students VTC: All right, let's get to the next slide we are getting almost out of time.

603

01:21:30.540 --> 01:21:39.000

Jason Enser- Dean of Students VTC: Oh actually mo put in one more thing if there were to be an online orientation, in addition to in person, what would you like included in the online piece.

604

01:21:39.540 --> 01:21:50.520

Jason Enser- Dean of Students VTC: Any I know the connection game mentioned the idea of young trying to do things virtually any other thoughts before we go on to the next one Perry.

605

01:21:51.600 --> 01:22:00.900

Perry Ragouzis: I mean, I know at castles and again our online orientation is up and running Mike by June.

606

01:22:02.100 --> 01:22:05.850

Perry Ragouzis: And it is all independent you complete it independently.

607

01:22:06.960 --> 01:22:13.950

Perry Ragouzis: And it's more informational I still remember, and I actually still have my orientation website linked.

608

01:22:15.210 --> 01:22:24.390

Perry Ragouzis: Because I sometimes every once in a while refer to it for just information that is an informational almost seminar, I think, where people are able to.

609

01:22:24.810 --> 01:22:37.380

Perry Ragouzis: Go to and if you're able to then get a lot of that information out of the way and always have it accessible to students, then come in person orientation you get to focus on the student experience student life, and that is a.

610

01:22:37.920 --> 01:22:45.570

Perry Ragouzis: Intensive fun opportunity, I think, I think that if you're able to get that stuff out of the way before students are coming to school.

611

01:22:45.780 --> 01:22:52.230

Perry Ragouzis: They know why they're coming here they know where they're coming for education, but if you're able to then suddenly present a weekend that shows everything else that.

612

01:22:53.010 --> 01:23:03.240

Perry Ragouzis: The University has to offer, and the student experience and how complex intricate that can be for them, I think that that's really then where the in-person orientation, even if that's.

613

01:23:03.810 --> 01:23:13.440

Perry Ragouzis: or other online orientation with other people suddenly, then you can focus more on building connections and building communities, which I think it's really important.

614

01:23:14.250 --> 01:23:19.710

Jason Enser- Dean of Students VTC: Experience and then final thoughts from serena some sort of cohesion and similar schedule events.

615

01:23:19.950 --> 01:23:26.460

Jason Enser- Dean of Students VTC: where applicable, between the online and in person would be beneficial, in my opinion, allows for a common ground between students.

616

01:23:26.790 --> 01:23:34.440

Jason Enser- Dean of Students VTC: we've tried to do that with our program I would just say the challenges, when you think about any type of team building any type of.

617

01:23:34.950 --> 01:23:43.830

Jason Enser- Dean of Students VTC: You know you have a meal together any type of tour of campus you can't really replicate those with the online, but I think the rest of the program you know.

618

01:23:44.070 --> 01:23:52.950

Jason Enser- Dean of Students VTC: The presentations by financial aid and student affairs and academic affairs we've tried to make sure it's all the same information, and that is important serena.

619

01:23:53.550 --> 01:24:01.230

Jason Enser- Dean of Students VTC: All right, we're almost out of time let's get to our next one and Wilson said we should wrap up soon so last thing, and I will keep this to.

620

01:24:01.680 --> 01:24:18.570

Jason Enser- Dean of Students VTC: four minutes as well since that student activities student government so governance structure for campuses in the CSU student activities and supporting hybrid campus activities and clubs so briefly thoughts and I saw gave jumped with this and first.

621

01:24:19.050 --> 01:24:22.680

Gabriel Wilkinson: that's me um yeah keep the government's separate.

622

01:24:25.440 --> 01:24:35.040

Gabriel Wilkinson: yep it's all it really needs to be said, I we've already talked the other myself and the student other student governments, none of us want to be combined it's a terrible idea.

623

01:24:35.910 --> 01:24:40.560

Gabriel Wilkinson: We can each handle our own campus and that's pretty much it I am alone, we are loners.

624

01:24:40.920 --> 01:24:55.230

Gabriel Wilkinson: Are kind of struggling where we're doing a heck of a lot better, but now that we're like because we're combined with like Williston and all the nursing sites that alone is a challenge we could not deal with that on a scale of like the whole school.

625

01:24:57.630 --> 01:25:12.060

Gabriel Wilkinson: Our system, as is where we have the representative well Perry, I guess hello, you are, that person acting as I guess are in a way, our LEADER I guess amongst though all of the different governments that works great.

626

01:25:13.980 --> 01:25:22.920

Gabriel Wilkinson: Other than that, each school should be definitely left to manage their own things as far as clubs go I would love to see some cross collaboration.

627

01:25:23.610 --> 01:25:28.860

Gabriel Wilkinson: Say actually This goes for clubs and student activities I'd love to see some cross cooperation between the campuses I know.

628

01:25:29.730 --> 01:25:40.860

Gabriel Wilkinson: esports club is working right now on creating a kind of centralized esports come across all the schools which that is a very specially like suited kind of Club to do that.

629

01:25:42.600 --> 01:25:49.020

Gabriel Wilkinson: Is that that aspect would allow as well, to make it a lot easier for online students to be able to interact with those clubs.

630

01:25:50.610 --> 01:26:02.760

Gabriel Wilkinson: same a student activities, I think this do activities sports should talk more they often have really cool events that go on one campus and then the other campus just has no idea about it and many students would have loved to have gone.

631

01:26:04.170 --> 01:26:04.680

Gabriel Wilkinson: exceeded.

632

01:26:04.770 --> 01:26:07.230

Jason Enser- Dean of Students VTC: Any final thoughts as we're wrapping up.

633

01:26:07.890 --> 01:26:13.620

Jason Enser- Dean of Students VTC: And we will as we're doing designed for these areas, we will come back to you to get your feedback.

634

01:26:14.130 --> 01:26:21.630

Jason Enser- Dean of Students VTC: We definitely want to make sure, whatever we're designing is student centered first and you, you know feel like it's the right thing.

635

01:26:21.900 --> 01:26:31.530

Jason Enser- Dean of Students VTC: Because I could tell you elbow Dennis Jonathan I are very passionate about this spent a couple of years since we were actual undergraduate students, so we want to make sure we're checking in with y'all.

636

01:26:33.840 --> 01:26:34.800

Jason Enser- Dean of Students VTC: Any final thoughts.

637

01:26:36.750 --> 01:26:45.210

Jason Enser- Dean of Students VTC: If not, thank you, I really appreciate it, I, this is, I don't know who's the chair of this group is this Wilson is this go back to you.

638

01:26:45.480 --> 01:26:47.010

Wilson Garland: Sure sounds good.

639

01:26:47.310 --> 01:26:59.940

Wilson Garland: Okay yeah so and I just want to echo what Jason said thanks for taking the time to chat with us tonight, and thanks to all of you been part of this both this semester, and last semester.

640

01:27:00.960 --> 01:27:10.530

Wilson Garland: You know, we really couldn't do this transformation without your help, so thanks for your input and we look forward to more opportunities to do that in the future and.

641

01:27:11.700 --> 01:27:12.930

Wilson Garland: thanks for your time tonight.

642

01:27:14.040 --> 01:27:17.190

Sophie Zdatny, Chancellor: Good luck to all those who are graduating will miss you next year.

643

01:27:18.330 --> 01:27:18.570

Michael Stevens: Thank you.

644

01:27:18.600 --> 01:27:25.920

Gabriel Wilkinson: AJ Jason the future if you'd like to bounce some ideas off of myself and Chris I'm sure we'd be able to help bounce off orientation ideas.

645

01:27:26.640 --> 01:27:31.020

Jason Enser- Dean of Students VTC: Absolutely, well, I think you're applying to be an orientation leader so.

646

01:27:31.320 --> 01:27:32.760

Gabriel Wilkinson: Part of them application and actually.

647

01:27:32.760 --> 01:27:35.190

Jason Enser- Dean of Students VTC: giving us feedback of what went right what went wrong.

648

01:27:36.810 --> 01:27:37.830

Jason Enser- Dean of Students VTC: Alright, see y'all thanks.

649

01:27:37.890 --> 01:27:38.580

Wilson Garland: Thanks everyone.

650

01:27:39.630 --> 01:27:41.670

Sophie Zdatny, Chancellor: Thank you for joining us PO into.

\*Introductions

10

00:01:48.630 --> 00:02:06.120

Wilson Garland: And if you could say who you are where you're from and what your role is that would be great, and I'll start off I'm Wilson Garland and I'm the project manager for the transformation projects and I'm glad to have everyone here tonight me.

11

00:02:08.280 --> 00:02:16.950

Meg Walz: Meg Walz I'm the director of project management in the IT department in the office of the Chancellor and I'm a robot and easiest.

12

00:02:20.220 --> 00:02:21.330

Wilson Garland: Thanks Meg.

13

00:02:23.010 --> 00:02:28.500

Michael Stevens: Mike Stevens working as a project manager I'm on this transition and I'm going fishing tomorrow.

14

00:02:33.120 --> 00:02:33.690

Jonathan Davis (he/him): Jonathan.

15

00:02:34.920 --> 00:02:39.150

Jonathan Davis (he/him): A good evening everyone I'm Jonathan Davis I'm the dean of students at northern Vermont university.

16

00:02:42.270 --> 00:02:44.250

Wilson Garland: Right Mary Kathryn.

17

00:02:47.070 --> 00:02:53.670

Mary Kathryn Juskiewicz: Thanks Wilson hi everyone I'm happy to be here I'm Mary Kathryn just codes associate Dean about regions of whatever my tech.

18

00:02:57.060 --> 00:02:58.170

Wilson Garland: All right, Aurora.

19

00:03:00.120 --> 00:03:09.360

Aurora Hurd (they/them): hi there, this is my second week I am a new communications assistant and staff writer for the transformation project in the office of the Chancellor.

20

00:03:12.120 --> 00:03:12.990

Wilson Garland: And Hannah.

21

00:03:15.930 --> 00:03:24.360

Hannah Cerasoli: hi I'm Hannah Cerasoli I am an NVU online student graduating in a couple of weeks, and this has been a great experience, but I will not be back.

22

00:03:24.360 --> 00:03:24.780

Hannah Cerasoli: In the fall.

23

00:03:26.340 --> 00:03:27.750

Wilson Garland: Congratulations on that.

24

00:03:30.120 --> 00:03:30.660

Wilson Garland: Yasmine.

25

00:03:31.950 --> 00:03:38.160

Yasmine Ziesler: Everyone Yasmine Ziesler chief academic officer and I lead the academic operations team for transformation.

26

00:03:40.560 --> 00:03:41.190

Yasmine Ziesler: worries.

27

00:03:42.000 --> 00:03:47.070

Maurice Ouimet: Hello everybody Maurice Ouimet dean of enrollment and I'm leading the student experience transformation.

28

00:03:51.900 --> 00:03:53.040

Wilson Garland: And Sophie.

29

00:03:54.120 --> 00:04:05.820

Sophie Zdatny, Chancellor: I am so pleased, without any I'm the Chancellor and congratulations to those that are graduating and congratulations to Perry for going to be joining us as the student trustee moving forward so congratulations on that.

30

00:04:07.110 --> 00:04:07.440

Perry Ragouzis: Thank you.

31

00:04:08.880 --> 00:04:10.110

Wilson Garland: And Perry your next.

32

00:04:11.520 --> 00:04:12.330

Perry Ragouzis: hi everyone.

33

00:04:12.780 --> 00:04:17.970

Perry Ragouzis: I'm Perry, I am a first-year student at Castleton university studying political science.

34

00:04:20.610 --> 00:04:21.360

Wilson Garland: And Dennis.

35

00:04:22.560 --> 00:04:25.050

Dennis Proulx: hi there Dennis Proulx Castleton dean of students.

36

00:04:27.150 --> 00:04:27.690

Wilson Garland: Gabriel.

37

00:04:28.890 --> 00:04:29.460

Gabriel Wilkinson: hi I'm.

38

00:04:29.520 --> 00:04:35.010

Gabriel Wilkinson: Gabriel Wilkinson I am the student Council President here at VTech I reside on the Randolph campus.

39

00:04:36.570 --> 00:04:37.290

Wilson Garland: And Sarina.

40

00:04:38.850 --> 00:04:39.810

Sarina Pesinkowski: Can everyone hear me.

41

00:04:40.950 --> 00:04:41.910

Sarina Pesinkowski: We can okay great.

42

00:04:42.060 --> 00:04:52.080

Sarina Pesinkowski: I'm zooming in from a new location, so I just wasn't sure, thank you, my name is serena I am a fifth-year senior graduating with a bachelor's in psych on the Johnson campus.

43

00:04:54.630 --> 00:04:56.190

Wilson Garland: Thanks Sarina. Kayon.

44

00:04:58.650 --> 00:05:03.570

Kayon Morgan: Hello everyone I'm Kayon I'm a sophomore here Castleton studying political science as well.

45

00:05:04.950 --> 00:05:05.430

Wilson Garland: Right.

46

00:05:05.760 --> 00:05:06.900

Wilson Garland: And Parwinder.

47

00:05:10.710 --> 00:05:20.850

Parwinder Grewal: Hello everyone, Parwinder Grewal I am the new President of our Vermont State University, I will be joining in July one.

48

00:05:21.930 --> 00:05:29.910

Parwinder Grewal: But today I'm just here to listen to start connecting with you all and I'm very pleased to be.

49

00:05:31.020 --> 00:05:31.920

Parwinder Grewal: Listening in today.

50

00:05:33.030 --> 00:05:33.960

Wilson Garland: Thanks for joining us.

51

00:05:35.160 --> 00:05:37.500

Wilson Garland: And Jason.

52

00:05:38.610 --> 00:05:52.290

Jason Enser- Dean of Students VTC: I started my little bit late and running back-to-back meetings I'm Jason Enser the dean of students at Vermont technical college and I'm the lead for this sub team and I guess I hope everybody introduce themselves from the team right.

53

00:05:53.730 --> 00:05:55.830

Wilson Garland: I believe we have yeah Sharron.

54

00:05:56.970 --> 00:06:04.050

Sharron Scott: I am Sharron Scott I'm the chief financial and the operating officer for the system, my apologies for being a couple minutes late but it's nice to see everyone.

55

00:06:06.210 --> 00:06:07.590

Wilson Garland: And Ikay.

56

00:06:10.470 --> 00:06:17.190

Ikay Ekeji: Hello I'm okay I'm second year students was causing residency and I'm a double major in marketing and management.

57

00:06:19.230 --> 00:06:20.940

Wilson Garland: Great thanks for joining us today.

58

00:06:25.290 --> 00:06:27.600

Tajae Edwards: Oh I'm still trying to connect my laptop.

59

00:06:29.640 --> 00:06:36.780

Tajae Edwards: I'm Tajae Edwards I'm the president of the N double ACP chapter here at Castleton I'm also a senior graduating this May.

60

00:06:38.910 --> 00:06:39.420

Wilson Garland: All right.

61

00:06:40.800 --> 00:06:43.230

Wilson Garland: I think that's everybody, so thank you.
